

BRIAN HEAD

2026 ROAD PROJECTS

Brian Head Town is always striving to improve the image of Brian Head Town by maintaining its paved and gravel roads which can be a challenge due to Brian Head's environment. For the 2026 Road Projects, the Woodbridge Subdivision road also known as Ridge View Street, Pinehurst, and Eagles Roost roads will be improved.

WOODBIDGE SUBDIVISION ROAD PROJECT

The Woodbridge Subdivision consists of three main roads that travel through the subdivision, Ridge View Street, Pinehurst Street and Eagles Roost. This project will be a mix of grinding out the old pavement, asphalt overlay, drainage improvements and a chip seal. Traffic is anticipated to be impacted at times during the course of the summer. Residents of the neighborhood are encouraged to sign up for email updates.
