- (2) Putrid Dead Animals, Fish or Fowl: Any putrid, unsound, or unwholesome bones, meat, hides, skins or the whole or any part of any dead animal, fish, or fowl.

- (3) **Keeping Livestock, Other Animals Causing Odor Nuisances:** The keeping of rabbits, chickens, cattle, goats, sheep, pigs, bees, mules, horses, mink, dogs, cats, muskrats, or any other animals within the city limits that are of such nature as to create offensive smells, noises, and conditions in the vicinity in which they are kept and authorized.
- (4) No person shall deposit, on public or private property, rubbish, garbage, trash, debris, refuse or any substance or material that would mar its appearance, create a stench, harbor vectors of rodents, or fire hazard which detract from the cleanliness or safety of the property or would be likely to injure a person, animal or vehicle traveling on a public right-of-way.
- (5) Premises that are or condition which cause offensive odors that are in an unsanitary condition
- (6) *Odoriferous nuisances.* No owner or person in charge of property on which obnoxious, offensive or objectionable odors are created or generated shall cause or permit odors to escape from that property so as to endanger the health of, cause significant discomfort to, or otherwise deleteriously affect the convenience, safety or welfare of any person within the city limits. All obnoxious, offensive and/or objectionable odors within the city limits are odoriferous nuisances affecting public health and safety, may be penalized as and may be abated as provided, notwithstanding any governmental authorizations or permits issued to the odor-causing activity and irrespective of the location of the activity or the economic or social utility thereof.
- (7) *Evidence of odoriferous nuisances.* All or any of the following shall be evidence of the existence of obnoxious, offensive or objectionable odors within the city limits:
  - (a) The oral or written complaint of three or more persons, within any 12-hour period, to the effect that odors emanating from any activity within or in the vicinity of the city are causing adverse health effects, significant discomfort, or serious inconvenience to the persons (or to minors within the custody or care of the persons) at a residence or place of business within the city limits; or

- (8) The finding, by an odor panel, that odors emanating from a source inside or outside the city limits exceed two odor units at the property boundary or at the city limits (whichever is closest to the source.) The odor panel shall be comprised of six residents of the city appointed by the Mayor and confirmed by the City Council. The determination by the odor panel shall be based on substantial adherence to the following procedure: A sample is collected in a glass sampling bulb (25 to 10,000 ml in size) and delivered immediately to the odor panel for a series of dilutions and sniffing's using the triangle olfactometer method, in which three samples are presented to each panelist from a series of glass sniffing ports. Two are test room air (blanks), and the third is odorous air diluted with test room air. The olfactometer supplies six dilution levels. An odor unit is defined as the volumetric amount of the odorous gas which is detectable by only half the odor panel in 0.03m<sup>3</sup> (1 cu. ft.) of odor-free air. The strength of an odor is determined by the number of dilutions with odor-free air needed to reduce an odor to a barely detectable level.
- (9) *Abatement of odoriferous nuisances.* Notwithstanding any other provision of this Code, the creation or generation of any odoriferous nuisance may be ordered abated only upon the motion, petition or complaint of the city or any resident of the city:

(1) For purposes of this Code, an ATTRACTIVE NUISANCE is any item or condition that is likely to attract persons under the age of 18 years old onto property and into a situation involving risk of harm. All persons responsible are charged with knowledge that such persons may not appreciate the risks that an item or condition may present. Attractive nuisances are presumed to constitute an immediate danger.

(2) No person shall suffer or permit to remain unsecured or unguarded any attractive nuisance, including but not limited to:

(a) Machinery, equipment or any other device having the characteristics of an attractive nuisance.

(b) Any pit, quarry, cistern, well or other excavation or any unsecured abandoned or dangerous structure.

## W. Blowing Dust

- (1) For purposes of this section, dust includes but is not limited to dust, sand, dirt or similar material. No person responsible, who owns or disturbs land, including, but not limited to, clearing, grading, grubbing, excavating, filling, landscaping, or erecting buildings, or allows, contracts for, or directs the disturbance of the land, shall cause or permit dust to blow from a vacant parcel or the disturbed land site to other real property, including streets and dry wells in sufficient quantities and of such characteristics and duration as to be inconvenient, annoying, or injurious to human health, plant or animal life, or property.
- (2) No person shall disturb land without first obtaining approval. The city shall require such a plan as a condition of any development agreement, permit or public contract involving disturbance of land. The city will approve the Blowing Dust Control Plan only if the city determines that the Blowing Dust Control Plan contains reasonably acceptable control measures that, if followed, will prevent or substantially reduce blowing dust during high winds. A cash deposit, performance bond, letter of credit, or other security to secure performance of the Blowing Dust Control Plan, in an amount as established by the City, must be submitted with the Blowing Dust Control Plan.
- (3) The Blowing Dust Control Plan shall identify the reasonably acceptable control measures that will be utilized to prevent blowing dust, including persons who will check the site during weekends and holidays and have the ability and means to take corrective action. Corrective action must be available 24 hours per day, seven days per week. The names and phone numbers of such persons shall be included in the plan, and the city shall be advised immediately, in writing, if there are any changes in the names or phone numbers of the person or persons to contact. The Blowing Dust Control Plan and security deposit shall remain in effect for the full period of the activity which disturbs the land. The city may require the Blowing Dust Control Plan and the security deposit to continue beyond the final completion of the land disturbance activity for up to, but not to exceed, two years if the extension is necessary to ensure that the disturbed soil has stabilized.
- (4) Actions by a public utility, the city, or other governmental agency to remove or alleviate an emergency condition, restore utility service, or reopen a public thoroughfare to traffic are exempt from controlling dust.

(5) In addition to issuance of a citation or complaint, the city may order that immediate steps be taken as are necessary to stop or mitigate blowing dust. This may be done notwithstanding compliance with an approved plan if the city determines that approved plan is ineffective, or the dust exceeds the amount of blowing dust anticipated by the plan. The order may include, but is not limited to, suspension of all dust generating activity until sufficient control measures are in place. If the person responsible is unavailable, or is unwilling or unable to comply with such order within the time set forth in the order, the city may initiate such efforts as it deems reasonable to suppress the blowing dust; provided, that the city may not enter the property without the consent of the owner or person in charge, a warrant or lawful exception to obtaining a warrant. The costs incurred by the city for dust suppression efforts shall be borne by the person responsible in an amount set by resolution of the Council reasonably calculated to reimburse the city for all costs. The city may recover the costs from the security filed with a Blowing Dust Control Plan or as otherwise provided by law. These costs are in addition to any penalty assessed against a violator.

(6) Violation of this section involving a property of less than one acre is a Class B violation. Violation of this section involving a property of one acre or more, including failure to obtain or comply with the terms of an approved Blowing Dust Control Plan is a Class A violation. Failure to comply with an order to suspend operations or take other steps ordered by the city to abate blowing dust is a Class A violation. Except for failure to obtain a Blowing Dust Plan approval, it is an affirmative defense to a fine or civil penalty for a blowing dust violation if the responsible person establishes that the person made a good faith effort, to the maximum extent practicable, to control dust from blowing from the disturbed site, to comply with any approved Blowing Dust Control Plan or comply with an order to cease the activity or suppress the dust.

(7) In addition, failure to pay the fine and the costs incurred by the city for dust suppression shall be grounds for withholding issuance of requested permits or licenses, issuance of a stop work order, if applicable, or revocation or suspension of any issued permits or licenses.
