

Smoke Testing Notice  
Jun 01, 2009

NOTICE  
OF  
SMOKE TESTING SANITARY SEWER LINES

The Consolidated Koshkonong Sanitary District will be conducting a smoke test of its sanitary sewer system.

Work crews will be in your area during July and August of 2009. A SMOKE TEST survey will assist our inspection crews in locating breaks and defects in our sewer system. The smoke you see coming from vent stacks on houses or holes in the ground is NON-TOXIC, NON-STAINING, HAS NO ODOR, WHITE TO GRAY IN COLOR AND CREATES NO FIRE HAZARD.

The smoke should not enter your home unless you have defective plumbing or dried up drain traps.

It is advisable for the homeowner to pour a gallon of water into each floor drain prior to our testing. If smoke enters your home, there is good reason to assume that dangerous sewer gases may also be entering your home or business. You should evacuate immediately and notify our work crews. If you are not home and discover smoke when you return please call us at (608)868-7191 or (608)884-6447.

IMPORTANT: If there is any individual in your home or business who has respiratory problems and is immobile, please notify us at (608)868-7191 or (608)884-6447 prior to testing.

Material Safety Data Sheets for LiquiSmoke (the product used for smoke testing) are available at the C.K.S.D. Office, 328 E. Ellendale Road, Edgerton, WI.
