City of Deephaven Organization Chart

February 28, 2020

To the Honorable Mayor and
Members of the City Council
City of Deephaven
Deephaven, Minnesota

The comprehensive annual financial report of the City of Deephaven, Minnesota, for the year ended December 31, 2019, is hereby submitted for your review. The report was prepared in accordance with generally accepted accounting principles (GAAP) as established by the Governmental Accounting Standards Board and meets the requirements of the Minnesota State Auditor's Office.

The report consists of management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all information presented in this report. To provide a reasonable basis for making these representations, management of the City has established internal controls designed to protect the City's assets from loss, theft, or misuse and to provide sufficient reliable information for the preparation of these financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City's internal controls have been designed to provide reasonable, rather than absolute assurance that the financial statements will be free from material misstatements. As management, we assert that to the best of our knowledge and belief, this financial report is complete and reliable in all material respects. Furthermore, all disclosures necessary to enable the reader to have the maximum understanding of the City's financial activity have been included.

BerganKDV, a firm of licensed certified public accountants, has audited the City's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City for the fiscal year ended December 31, 2019, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. The independent auditor concluded that there was a reasonable basis for rendering an unmodified opinion that the City's financial statements for the fiscal year ended December 31, 2019, are fairly presented in conformity with GAAP. The independent auditor's report is presented on pages 9-11 of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found starting on page 12.

Government Profile

The City of Deephaven was incorporated in 1900. It is a western suburb of the Minneapolis/St. Paul area, located in Western Hennepin County. Deephaven covers an area of 2.3 square miles (or 1,440 acres) with an estimated population of 3,921. It is essentially a residential city, with a small commercial area that primarily serves the local community.

One of Deephaven's chief attractions is Lake Minnetonka with its three deep-cut bays bordering the city. The points and peninsulas overlooking the lake provide some of the City's most beautiful home sites, and the lake furnishes endless opportunities for year-round recreational activities. Summer fun is provided at six public beaches and two city marinas, which accommodates approximately 312 boats ranging in size from slender canoes to luxurious powerboats and sailboats. Deephaven's recreational areas include public parks, which contain tennis courts, baseball fields, platform courts, playground equipment, basketball courts and walking trails. Hiking trails and bike paths connect many recreational areas. During the winter, the trails are utilized for cross-county skiing. Deephaven is truly a haven when it comes to peaceful living and active recreation.

Management of the City is responsible for establishing and maintaining budgetary controls designed to ensure that the assets of the government are protected from loss, theft or misuse, and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with GAAP. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City Council. Activities of the General Fund are included in the annual appropriated budget. Project length financial plans are adopted for the Capital Projects Funds. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriate amount) is established by function and activity within an individual fund.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City of Deephaven operates.

Local Economic Condition and Outlook

The City of Deephaven has completely recovered from the recession and housing crisis that impacted the national economy back in 2008, which spurred a significant slowdown in construction activity, building permits and residential housing construction. However, as shown below, the total building permit value for the City of Deephaven has remained surprisingly consistent in recent years with the notable exception of 2011:

	Total Permits Number		Value
2019	572	\$	20,239,055
2018	650		27,492,851
2017	623		22,453,999
2016	548		21,471,415
2015	606		15,562,559
2014	551		25,926,380
2013	572		18,515,926
2012	506		14,447,728
2011	494		7,579,378
2010	541		13,268,023

More reflective of improving economic conditions, the overall market value of the City of Deephaven had increased every year since 2015. The market value has increased 11.5% in 2015, 9.9% in 2016, 4.5% in 2017, 5.0% in 2018, 5.9% in 2019, and 3.7% in 2020. The market value of the City of Deephaven is projected to reach an all-time high of 1.379 billion dollars in 2020. Certainly, this gives every indication that the residential housing market has fully recovered.

The City has adopted land use plans, zoning ordinances and developed shoreland management plans to ensure orderly growth and quality redevelopment. In 2019, the City substantially completed an update to the Comprehensive Plan, which extends to the year 2028. .

All of Deephaven is part of Independent School District No. 276, one of the most highly regarded Districts throughout the entire state, if not the entire country. Deephaven has one public elementary school and two private schools located within the city.

Commercial areas in Deephaven provide a limited range of commercial goods and services. The largest commercial area in the community is Chowen's Corner, which consists mainly of retail shops and offices. Two smaller commercial areas are located along Trunk Highway 7 / Vine Hill Road and Hwy 101.

Long-Term Financial Planning

Each year, as part of its review of the long-term financial plan of the City, the City Council establishes five primary long-term financial objectives. They include:

1. **Maintain property tax levy increases at the annual rate of inflation or less.** This goal has been established partly to adhere to levy limit requirements that have been periodically imposed by the State of Minnesota, but primarily to control the growth of government expenditures to a reasonable rate thereby providing its residents with some assurance that the property tax levy will not increase at a greater rate than wage increases. For the most part, this objective has been met with a 2% increase in 2011, 0% increase in both 2012 and 2013, 2.9% increase in 2014, 2.4% increase in 2015, 4.5% increase in 2016, 0.53% increase in 2017, 2.7% increase in 2018, and a 3.4% increase in 2019. The majority of the increase in 2019 will be to support a more aggressive street resurfacing program.
2. **Limit the future issuance of bonded debt until final payment has been made on the Excelsior Fire District Facility Bond in 2023 and the 2019 Street Reconstruction Bond in 2030.** This objective has been met with facility lease payments averaging approximately \$153,000 per year through 2023, with no immediate plans to issue future debt.
3. **Establish an unreserved General Fund Balance that equals or exceeds 90% of current year expenditures.** This objective has been met with an unreserved General Fund Balance of 103% in 2011, 108% in 2012, 115% in 2013, 122% in 2014, 113% in 2015, 108% in 2016, 113% in 2017, 112% in 2018, and 105% in 2019. In order to address excessive General Fund reserves in 2014, the Council transferred \$250,000 in 2015 and another \$300,000 in 2016 from the General Fund into the Capital Improvement Fund to assist in the financing of both street and bridge reconstruction projects. Even with these two transfers, projections through 2024 show that the unreserved General Fund Balance will still exceed 90% of current year expenditures.

4. **Establish a Capital Improvement Fund reserve of \$350,000 to provide available funding for street, police, park and administrative equipment and to adequately fund future street improvement projects.** This objective has been achieved in the short term with a Capital Improvement Fund reserve of \$360,395 in 2011, \$384,876 in 2012, and \$369,733 in 2013. After declining to a low of \$32,036 in 2014 due to the construction of the Vine Hill Bridge, future projections show the Capital Improvement Fund reserve will increase marginally to \$65,372 in 2024 due to gradual increases in the property tax levy that are needed to support a more aggressive schedule of street reconstruction projects that began in 2015.
5. **Establish utility rates that ensure the ability to finance annual operating costs, the schedule of current and future capital utility projects, and establish utility fund reserves in the amount of \$250,000 in the Water Utility Fund, \$600,000 in the Sewer Utility Fund and \$150,000 in the Storm Water Utility Fund.** The Water Utility Fund will continue to meet this objective as its current rate structure is adequate to fund all current and future operating costs and projected capital costs.

In the short term, the Storm Water Utility Fund will have a greater difficulty in meeting this objective due to an aggressive slate of capital projects within the next five years. However, a recent 2020 rate increase will greatly assisted with the funding of all current and future operating costs and projected capital costs.

The Sewer Utility Fund will present more of a challenge as projected increases in waste disposal fees and future capital improvement costs could potentially cause an overall reduction in the Sewer Utility Fund reserve. However, the City Council has already begun to take the necessary steps to ensure that adequate Sewer Utility Fund reserves are maintained well into the future by approving a sewer rate increase in 2019 that went into effect in 2020.

Major Initiatives

The City of Deephaven prepares a comprehensive Budget annually and also updates its long range plans and forecasts of key financial indicators. The City reviews the following long-range plans prior to preparing its annual budget:

- Capital Improvement Plan
- Five Year Budget Forecast
- Five Year Park Plan
- Five Year Utility Forecast
- Five Year Marina Forecast
- City Fiscal Policy

Deephaven, along with four other area municipalities, have established the Excelsior Fire District through a joint powers agreement that provides fire services and emergency medical response to all five communities. The joint powers agreement provides Deephaven with partial ownership of the Excelsior Fire District. After adjusting to the annual lease payments for the construction of the two new fire stations in 2003-2006, the City anticipates relative stability in its annual support to the District in future years.

The City has developed a web site, which can be assessed at www.cityofdeephaven.org.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Deephaven for its comprehensive annual financial report for the fiscal year ended December 31, 2018. This is the 23rd

consecutive year that the City has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine eligibility for another certificate.

Acknowledgments

We commend the finance department staff for their hard work and dedication. We want to recognize the firm of BerganKDV for their professional assistance. As always, we thank Mayor Skrede and the members of the City Council for their continued interest and support in planning and conducting the financial operations of the City in a very progressive and informed manner.

Respectfully submitted,

FINANCIAL SECTION

Independent Auditor's Report

Honorable Mayor and Members
of the City Council
City of Deephaven
Deephaven, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the City of Deephaven, Minnesota, as of and for the year ended December 31, 2019, and the related notes to financial statements, which collectively comprise the City's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities and each major fund of the City of Deephaven, Minnesota, as of December 31, 2019, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, which follows this report letter, and the Required Supplementary Information as listed in the Table of Contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by GASB who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Required Supplementary Information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Deephaven's basic financial statements. The accompanying supplementary information as listed in the Table of Contents, introductory section, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplementary information as listed in the Table of Contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information section is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Matters (Continued)

Other Information (Continued)

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 28, 2020, on our consideration of the City of Deephaven's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Deephaven's internal control over financial reporting and compliance.

Bergan KDV, Ltd.

St. Cloud, Minnesota

City of Deephaven Management's Discussion and Analysis

As management of the City of Deephaven (the "City"), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the year ended December 31, 2019.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the City exceeded liabilities and deferred inflows of resources at the close of the most recent year by \$13,069,189 (total net position). Of this amount, \$3,466,338 (unrestricted total net position) may be used to meet the City's ongoing obligations to citizens and creditors in accordance with the City's fund designations and fiscal policies.
- The City's total net position in 2019 decreased by \$37,822 in comparison with the prior year.
- As of the close of the current year, the City's governmental funds reported combined ending fund balances of \$3,737,005, an increase of \$42,374 in comparison with the prior year.
- At the end of the current year, the General Fund balance was \$3,315,794, which included \$25,531 that was nonspendable, \$256,319 committed for severance and other post employment benefits (OPEB) liability, and \$3,033,944 for working capital. The total General Fund balance was 105% of total 2019 General Fund expenditures.
- The City's governmental activities compensated absences and OPEB liability long-term debt is \$266,014. This amount has been committed in the General Fund. In other words, \$121,826 has been designated to pay for one-third accrued sick leave that is paid to City employees upon their retirement with the City and \$134,493 has been designated towards the City's outstanding OPEB liability, net of deferred outflows and inflows of resources.
- The City issued \$1,500,000 in General Obligation street reconstruction bonds to complete the 2019 resurfacing projects. The bonds will be repaid through general property tax levies through 2030.
- The propriety funds have an ending cash balance of \$924,275. This represents an increase of \$56,194 over the prior year primarily owing to a less aggressive schedule of capital improvement projects undertaken in the Water Fund, Sewer Fund, and Marina Fund in 2019.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

City of Deephaven Management's Discussion and Analysis

GOVERNMENT-WIDE FINANCIAL STATEMENTS (CONTINUED)

The Statement of Net Position presents information on all the City's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the City's net position changed during the most recent year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this Statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused sick leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include General Government, Public Safety, Public Works and Parks and Recreation Funds. The business-type activities of the City include Sewer, Water, Storm Water, Marina, and Recycling Funds.

The government-wide financial statements can be found on pages 23 through 25 of this report.

FUND FINANCIAL STATEMENTS

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a city's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statement. By doing so, readers may better understand the long-term impact of the City's near-term financial decisions. Both the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

City of Deephaven Management's Discussion and Analysis

FUND FINANCIAL STATEMENTS (CONTINUED)

Governmental Funds (Continued)

The City maintains three individual major governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General, Capital Improvement, and the Park Dedication Funds.

The City adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided on page 31 for this Fund to demonstrate compliance with the budget.

The basic governmental fund financial statements can be found on pages 27 through 31 of this report.

Proprietary Funds

The City maintains five major enterprise funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for water, sewer, storm water, marina, and recycling operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

The basic proprietary fund financial statements can be found on pages 33 through 35 of this report.

Notes to Financial Statements

The Notes to the Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to financial statements can be found on pages 37 through 68 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a city's financial position. In the case of the City, net position was \$13,069,189 at the close of 2019.

The largest portion of the City's net position of \$9,602,851 or 73% reflects its net investment in capital assets (e.g. land, buildings, machinery, and equipment, net of related debt). The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

Net Position						
Invested in capital assets	\$ 7,108	\$ 7,199	\$ 2,495	\$ 2,561	\$ 9,603	\$ 9,760
Restricted	-	-	-	-	-	-
Unrestricted	2,568	2,539	898	808	3,466	3,347
Total net position	<u>\$ 9,676</u>	<u>\$ 9,738</u>	<u>\$ 3,393</u>	<u>\$ 3,369</u>	<u>\$ 13,069</u>	<u>\$ 13,107</u>

The remaining balance of unrestricted net position (\$3,466,338) may be used to meet the City's ongoing obligations to citizens and creditors.

The City's net position decreased by \$37,822 during the current year: governmental activities decreased \$62,143 and business-type activities increased \$24,321. This overall decrease is primarily attributable to a stronger revenue position.

**City of Deephaven
Management's Discussion and Analysis**

GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)

There was a decrease in governmental activities net position by \$62,143 and an increase in business-type activities net position by \$24,321 in 2019, as noted previously. Key elements of this increase are as follows:

**CHANGES IN NET POSITION
(In Thousands)**

	Governmental Activities		Business-Type Activities		Total

GOVERNMENTAL ACTIVITIES

Governmental activities decreased its overall net position by \$62,143. Below are specific graphs that provide comparisons of the governmental activities revenues and expenses:

Governmental Activities - Revenues

Governmental Activities - Expenses

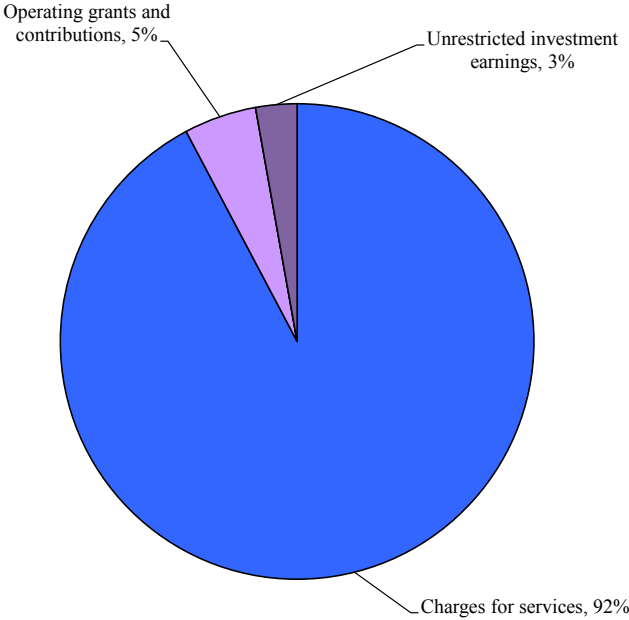

**City of Deephaven
Management's Discussion and Analysis**

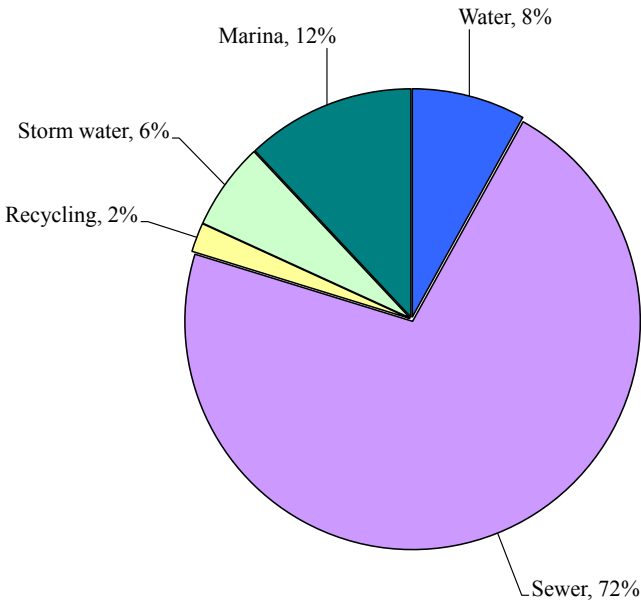

BUSINESS-TYPE ACTIVITIES

Business-type activities increased its overall net position by \$24,321. Below are graphs showing the business-type activities revenue and expense comparisons:

Business-Type Activities - Revenues

Business-Type Activities - Expenses

**City of Deephaven
Management's Discussion and Analysis**

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balances may serve as a useful measure of a city's net resources available for spending at the end of the fiscal year.

At the end of the current year, the City's governmental funds reported combined ending fund balances of \$3,737,005. Of this amount, \$25,531 represents amounts already expended for prepaid items and is classified as nonspendable. Other portions of the fund balances are dedicated as follows:

- 1) Committee to pay severance and OPEB liability (\$256,319)
- 2) Committed to fund special capital projects (\$436,132)

The remaining unassigned balance of \$3,019,023 provides for ongoing operating costs.

The General Fund decreased \$21,069 in 2019. The reasons for the higher than expected increase in the General Fund Balance is due to higher than anticipated expenses for professional services and street maintenance.

The Capital Improvement Fund balance increased \$67,906 over the prior year primarily due to lower than expected street resurfacing costs.

The Park Improvement Fund balance decreased \$4,463 over the prior year due to the purchase of park-related equipment.

Propriety Funds

Business-type activities increased the City's net position by \$24,321, principally due to a stronger revenue position in 2019.

From a cash position, business-type activities increased \$56,194 in 2019. A brief summary of each business-type activity is described below:

- Water Fund – The cash position of the Water Fund increased \$18,591 in 2019, largely owing to a lack of water system improvements in 2019.
- Sewer Fund – The cash position of the Sewer Fund increased \$11,238 in 2019. The increase is attributable to additional revenues generated by a sewer rate increase in 2019 and the receipt of an I/I grant from the Metropolitan Council in the amount of \$49,829, which more than offset a cleaning & televising project (\$42,861) and sewer main lining project (\$53,495).
- Recycling Fund – The cash position of the Recycling Fund decreased \$7,207 in 2019, largely owing to the fact that the Hennepin County Recycling Grant, which has typically covered the full cost of the annual Spring and Fall Cleanup Day, has been declining each year.

**City of Deephaven
Management's Discussion and Analysis**

FINANCIAL ANALYSIS OF THE CITY'S FUNDS (CONTINUED)

Propriety Funds (Continued)

- Storm Water Fund – The cash position of the Storm Water Fund stayed exactly the same in 2019, owing to the fact that the significant number of storm water projects undertaken in 2019 was offset by annual storm water fees.
- Marina Fund – The cash position of the Marina Fund increased \$33,572 in 2019 as a 2015 rate increase continues to provide positive cashflow into the Fund.

BUDGETARY HIGHLIGHTS

General Fund Revenues – With budgeted General Fund revenues and other financing sources of \$3,051,621 versus actual General Fund revenues and other financing sources of \$3,134,977, General Fund revenues and other financing sources came in \$83,356 higher than anticipated in 2019. A review of General Fund revenues illustrates there were three primary reasons for the surplus of General Fund revenues: 1) License and Permit Fees, 2) increases in State Fire and Police Aid, and 3) increases in Charges for Service.

General Fund Expenditures – With budgeted General Fund expenditures of \$3,039,907 versus actual General Fund expenditures of \$3,156,046, General Fund expenditures were \$116,139 higher than expected in 2019 due to higher than expected professional service and street maintenance costs.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The City's investment in capital assets for its governmental and business-type activities as of December 31, 2019, amounted to \$11,239,056 (net of accumulated depreciation). This investment in capital assets included land, land improvements, buildings, vehicles, and equipment is shown below.

	2019 (In Thousands)		2019 Total	2018 Total

**City of Deephaven
Management's Discussion and Analysis**

CAPITAL ASSET AND DEBT ADMINISTRATION (CONTINUED)

Capital Assets (Continued)

Additional information on the City's capital assets can be found in Note 4 of the section entitled Notes to Financial Statements.

Major capital asset events during the current fiscal year included the following:

- 2019 Street Resurfacing Projects (\$1,667,932)
- 2019 Public Works equipment (\$50,197)
- (2) Police Vehicles (\$78,290)
- Police Equipment (\$25,597)
- Park Landscaping Project (\$17,765)
- Sewer Main Cleaning & Televising (\$42,861)
- Sewer Main Lining (\$53,495)
- Lift Station & Pump Improvements (\$10,198)
- Storm Water Projects (\$72,556)
- Marina Security Camera System (\$7,280)

LONG-TERM DEBT

At the end of the current fiscal year, the City had total long-term debt totaling \$289,113 for accrued compensated absences and OPEB liability, net pension liability of \$991,292, and bonded debt in the amount of \$1,636,205. Refer to Notes 5, 8, and 10 in the financial statements for further information.

ECONOMIC FACTORS AND FUTURE BUDGET PLANS

The City is a fully developed community that must adjust to relatively slow growth in the future market value of the City. With little "new" tax dollars entering the community, the City must grow increasingly careful with the development of future budgets to control future increases in the property tax levy.

This places an increasing burden on the City to increase other revenue opportunities aside from the property tax levy to offset inflationary increases in supplies, employee salaries, health care and professional services.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to City Hall, 20225 Cottagewood Road, Deephaven, Minnesota 55331.

City of Deephaven
Reconciliation of the Balance Sheet to
the Statement of Net Position - Governmental Funds
December 31, 2019

Total fund balances - governmental funds \$ 3,737,005

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets used in governmental activities are not current financial resources and, therefore, are not reported as assets in governmental funds.

Cost of capital assets	13,970,483
Less accumulated depreciation	(5,226,265)

Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the funds. Long-term liabilities at year-end consist of:

Bond payable	(1,500,000)
Unamortized bond premium	(136,205)
Compensated absences payable	(121,826)
Total OPEB liability	(144,188)
Net pension liability	(902,351)

Net pension assets created through non-employer contributions to defined benefit pension plans are not recognized in the governmental funds.	375,978
--	---------

Deferred outflows of resources and deferred inflows of resources are created as a result of various differences related to pensions that are not recognized in the governmental funds.

Deferred outflows of resources related to pensions	721,498
Deferred inflows of resources related to pensions	(1,096,550)
Deferred outflows of resources related to OPEB	12,907
Deferred inflows of resources related to OPEB	(3,212)

Delinquent receivables will be collected in subsequent years, but are not available soon enough to pay for the current period's expenditures and, therefore, are deferred in the funds.

Property taxes	14,598
----------------	--------

Governmental funds do not report a liability for accrued interest is due and payable.	(25,739)
---	----------

Total net position - governmental activities	<u>\$ 9,676,133</u>

City of Deephaven
Reconciliation of the Statement of Revenues,
Expenditures and Changes in Fund Balances to
the Statement of Activities - Governmental Funds
Year Ended December 31, 2019

Net change in fund balances - governmental funds	\$ 42,374
Amounts reported for governmental activities in the Statement of Activities are different because:	
Capital outlay is reported in governmental funds as an expenditure. However, in the Statement of Activities, the cost of those assets is allocated over the estimated useful lives as depreciation expense.	
Capital outlay	2,069,535
Depreciation expense	(502,899)
Loss on disposal of capital assets	(21,563)
Compensated absences are recognized as paid in the governmental funds but recognized as the expense is incurred in the Statement of Activities.	
	(2,686)
Governmental funds recognize OPEB contributions as expenditures at the time of payment whereas the Statement of Activities factors in items related to OPEB on a full accrual perspective.	
	(2,648)
Premiums are recognized when debt is issued in the governmental funds but amortized over the life of the debt in the Statement of Activities.	
	13,492
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due and, thus, requires use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.	
	(25,739)
Issuances of long-term debt is shown as other financing sources in the funds but are recorded as a long-term liability in the Statement of Net Position.	
	(1,500,000)
Premiums on the issuance of long-term debt provide current financial resources to governmental fund and have no effect on net position. These amounts are reported in the governmental funds as an other financing source and constitute long-term liabilities in the Statement of Net Position.	
	(149,697)
Governmental funds recognize pension contributions as expenditures at the time of payment whereas the Statement of Activities factors in items related to pensions on a full accrual perspective.	
	14,511
Certain receivables will be collected in subsequent years, but are not available soon enough to pay for the current period's expenditures and, therefore, are deferred in the funds.

**NOTES TO BASIC
FINANCIAL STATEMENTS**

City of Deephaven
Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The City of Deephaven is a statutory city governed by an elected mayor and four council members. The accompanying financial statements present the government entities for which the government is considered to be financially accountable.

The financial statements present the City and its component units. The City includes all funds, organizations, institutions, agencies, departments, and offices that are not legally separate from such. Component units are legally separate organizations for which the elected officials of the City are financially accountable and are included within the basic financial statements of the City because of the significance of their operational or financial relationships with the City.

The City is considered financially accountable for a component unit if it appoints a voting majority of the organization's governing body and it is able to impose its will on the organization by significantly influencing the programs, projects, activities, or level of services performed or provided by the organization, or there is a potential for the organization to provide specific financial benefits to or impose specific financial burdens on, the City.

As a result of applying the component unit definition criteria above, certain organizations have been defined and are presented in this report as follows:

Joint Ventures and Jointly Governed Organizations – The relationship of the City with the Excelsior Fire District is disclosed as a joint venture because the City does not appoint a voting majority of the governing body.

For the category above, the specific entity is identified as follows:

1. Joint Venture

The City belongs to the Excelsior Fire District (the "District") which is made up of five member cities. The primary purpose of this organization is to provide fire protection services to the member cities. The City retains an equity interest in the District as of December 31, 2019, for actuarial reporting purposes.

In connection with the construction of the two fire safety facilities, the Shorewood Economic Development Authority (EDA) has issued two bonds totaling \$4,900,000 in 2016 on behalf of the District and its member cities. All five member cities contribute annually towards the bonded debt payments. Annual debt service payments are determined each year based on several factors, including tax capacity.

During 2019, the City paid \$360,100 to the District for fire services provided and \$156,465 of debt service payments. To obtain a copy of the Excelsior Fire District financial statements contact the City of Excelsior. To obtain a copy of the Shorewood Economic Development Authority financial statements contact the City of Shorewood.

City of Deephaven
Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the governmental and enterprise activities of the City. As a general rule, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. Internally dedicated revenues are reported as general revenues rather than program revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences and claims and judgments are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current period are all considered to be susceptible to accrual and so have been recognized as revenues of the current period. Only the portion of special assessments receivable due within the current period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

City of Deephaven
Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Description of Funds:

Major Governmental Funds:

General Fund – This fund is the City's primary operating fund. It accounts for all financial resources of the general City, except those required to be accounted for in another fund.

Capital Improvement Capital Project Fund – This fund accounts for revenues and expenditures related to City capital improvements other than specific projects accounted for in other funds.

Park Dedication Capital Project Fund – This fund accounts for the revenue and expenditures related to City park improvements.

Proprietary Funds:

Water Fund – This fund accounts for the operations of the City's water services.

Sewer Fund – This fund accounts for the operations of the City's sewer services.

Recycling Fund – This fund accounts for the operations of the City's recycling services.

Storm Water Fund – This fund accounts for the operations of the City's storm water services.

Marina Fund – This fund accounts for the operations of the City's marina on Lake Minnetonka.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's public utility funds and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed. Further, the City applies unrestricted funds in this order if various levels of unrestricted fund balances exist: committed, assigned, and unassigned.

City of Deephaven
Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity

1. Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Investments are stated at market value.

Minnesota Statutes require all deposits made by cities with financial institutions to be collateralized in an amount equal to 110% of deposits in excess of Federal Deposit Insurance Corporation (FDIC) insurance.

Minnesota Statutes authorizes the City to invest in obligations of the U.S. Treasury, agencies, and instrumentalities, share of investment companies whose only investments are in the aforementioned securities, obligations of the State of Minnesota, or its municipalities, bankers' acceptances, future contracts, repurchase and reverse repurchase agreements, and commercial paper of the highest quality with a maturity of no longer than 270 days and in the Minnesota Municipal Investment Pool.

Certain investments for the City are reported at fair value as disclosed in Note 2. The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The Hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

2. Receivables and Payables

All trade and property tax receivables are shown at a gross amount since both are assessable to the property taxes and are collectible upon the sale of the property.

The City levies its property tax for the subsequent year during the month of December. December 28 is the last day the City can certify a tax levy to the County Auditor for collection the following year. Such taxes become a lien on January 1 and are recorded as receivables by the City at that date. The property tax is recorded as revenue when it becomes measurable and available. Hennepin County is the collecting agency for the levy and remits the collections to the City three times a year. The tax levy notice is mailed in March with the first half of the payment due on May 15 and the second half due on October 15. Taxes not collected as of December 31 each year are shown as delinquent taxes receivable.

The County Auditor prepares the tax list for all taxable property in the City, applying the applicable tax rate to the tax capacity of individual properties, to arrive at the actual tax for each property. The County Auditor also collects all special assessments, except for certain prepayments paid directly to the City.

The County Auditor submits the list of taxes and special assessments to be collected on each parcel of property to the County Treasurer in January of each year.

City of Deephaven
Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

**D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity
(Continued)**

3. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are recorded as an expenditure/expense at the time of consumption.

4. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Property, plant, and equipment of the City are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Bridges	40
Mains and lines	30 - 50
Buildings and improvements	15 - 50
Streets	15 - 25
Vehicles and equipment	3 - 25
Lift station pumps and valves	10

5. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until that time. The City presents deferred outflows of resources on the Statements of Net Position for deferred outflows of resources related to pensions and OPEB for various estimate differences that will be amortized and recognized over future years.

City of Deephaven
Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

**D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity
(Continued)**

5. Deferred Outflows/Inflows of Resources (Continued)

In addition to liabilities, the statement of financial position and fund financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City presents deferred inflows of resources on the Governmental Fund Balance Sheet as unavailable revenue. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The City presents deferred inflows of resources on the Statements of Net Position for deferred inflows of resources related to pensions and OPEB for various estimate differences that will be amortized and recognized over future years.

6. Compensated Absences

Under terms of union contracts and personnel policies, the City's employees are granted vacation in varying amounts depending on length of service and union contract or employee classification. All full-time employees accumulate eight hours of sick leave per month of service. Upon termination, employees are paid for all unused vacation. Any employee who leaves the City under honorable condition is eligible for severance pay. Severance pay is one-third of unused accumulated sick leave.

7. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, the business-type activities, or proprietary fund type Statement of Net Position. Bond premiums are deferred and amortized over the life of the bonds using the straight-line method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and the relief association and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA and the relief association except that PERA's fiscal year end is June 30. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

**D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity
(Continued)**

9. Fund Equity

a. Classification

In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purpose for which amounts in those funds can be spent.

- **Nonspendable Fund Balance** – These are amounts that cannot be spent because they are not in spendable form.
- **Restricted Fund Balance** – These are amounts that are restricted to specific purposes either by a) constraints placed on the use of resources by creditors, grantors, contributors, or laws or regulations of other governments or b) imposed by law through enabling legislation.
- **Committed Fund Balance** – These are amounts that can only be used for specific purposes pursuant to constraints imposed by the City Council (highest level of decision making authority) through resolution.
- **Assigned Fund Balance** – These are amounts that are constrained by the City's intent to be used for specific purposes but are neither restricted nor committed. Assignments are made by the City Administrator/Clerk/Treasurer based on the City Council's direction.
- **Unassigned Fund Balance** – These are residual amounts in the General Fund not reported in any other classification. The General Fund is the only fund that can report a positive unassigned fund balance. Other funds would report a negative unassigned fund balance should the total of nonspendable, restricted, and committed fund balances exceed the total net resources of that fund.

The City applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used. The City considers restricted to be spent first when an expenditure is incurred where both restricted and unrestricted fund balance is available. In addition, expenditures are applied to fund balances based on this hierarchy: committed, assigned, and unassigned. The amounts are considered to have been spent when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

City of Deephaven
Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

**D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity
(Continued)**

9. Fund Equity (Continued)

b. Minimum Fund Balance

The City's General Fund minimum fund balance is an amount equivalent to 90% of the following year's operating budget.

10. Net Position

Net position represents the difference between assets and deferred outflows of resources; and liabilities, and deferred inflows of resources, in the government-wide financial statements. Net investment in capital assets consists of capital assets, net of accumulated depreciation. Net position is reported as restricted in the government-wide financial statement when there are limitations on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

E. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenditures/expense during the reporting period. Actual results could differ from those estimates.

F. Budgetary Information

The City Council adopts an annual budget for all funds. The amounts shown in the financial statements for the General Fund as "budget" represent the original budgeted amount. The City follows these procedures in establishing the budgetary data reflected in the financial statements:

1. The City Administrator/Clerk/Treasurer compiles the budget requests into an overall preliminary City budget.
2. The City Administrator/Clerk/Treasurer presents the proposed budget to the City Council. The budget resolution adopted by the City Council sets forth the budgets at the function level for all of the funds.
3. Formal budgetary integration is employed as a management control device during the year.

The budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriations lapse at year-end. The detailed budget schedule provided in the supplementary information is presented on the same basis. No revisions to the budgets were made during the year.

City of Deephaven
Notes to Financial Statements

NOTE 2 – DEPOSITS AND INVESTMENTS

Cash balances of the City's funds are combined (pooled) and invested to the extent available in various investments authorized by *Minnesota Statutes*. Each fund's portion of this pool is displayed in the financial statements as "cash and investments." For purposes of identifying risk of investing public funds, the balances and related restrictions are summarized below and on the following page.

A. Deposits

Custodial Credit Risk – Deposits: For deposits, this is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City's policy states all deposits must be fully insured and collateralized in the name of the City, subject to release by the City Administrator/Clerk/Treasurer. As of December 31, 2019, the City's bank balance was not exposed to custodial credit risk because it was fully insured through the FDIC as well as pledged collateral. The City's deposits had a book balance as follows:

Checking and money market savings	\$ 972,891
Certificates of deposit	<u>340,000</u>
Total deposits	<u><u>\$ 1,312,891</u></u>

B. Investments

As of December 31, 2019, the City had the following investments:

Investment Type	Fair Value	Investment Maturities	
		Less than One Year	1-5 Years
Brokered certificates of deposit	\$ 3,317,397	\$ 1,268,527	\$ 2,048,870
Brokered money market account	<u>17,873</u>	<u>17,873</u>	<u>-</u>
Total investments	<u><u>\$ 3,335,270</u></u>	<u><u>\$ 1,286,400</u></u>	<u><u>\$ 2,048,870</u></u>

Maturity	
Less than one year	39%
1-5 years	61%

The City has the following recurring fair value measurements as of December 31, 2019:

- \$3,317,397 of investments are valued using a matrix pricing model (Level 2 inputs)

Interest Rate Risk: This is the risk that market values of securities in a portfolio would decrease due to changes in market interest rates. The City's investment policy states the City should manage its interest rates based on liquidity, safety, and the overall return on the investment.

City of Deephaven
Notes to Financial Statements

NOTE 2 – DEPOSITS AND INVESTMENTS (CONTINUED)

B. Investments (Continued)

Custodial Credit Risk – Investments: For an investment, this is the risk that in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City's investment policy states when a broker/dealer holds investments purchased by the City in safekeeping, the broker/dealer must provide asset protection of \$500,000 through the Securities Investor Protector Corporation (SIPC) and at least another \$2 million supplemental insurance protection.

Credit Risk: This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State law limits investments in commercial paper and corporate bonds to be in the top two ratings issued by nationally recognized statistical rating organizations. The City's investment policy lists the allowable investments as government securities, certificates of deposit, repurchase agreements, any general obligation security of the State of Minnesota or any of its municipalities, state-wide investment pool, and money market mutual funds. City's investments were federally insured by FDIC.

Concentration of Credit Risk: This is the risk of loss attributed to the magnitude of an investment in a single issuer. The City's investment policy states the City will attempt to diversify its investments according to type and maturity. No more than 30% of the total investment should extend beyond five years and the City shall not invest in investments with a maturity exceeding 20 years. As of December 31, 2019, the following investments, brokered CDs, of the City composed more than 5% of the City's portfolio:

Safra National Bank	7.05 %
Valley National Bank	6.90
Bank Baroda	6.90
AMEX Centurion	6.63
CIT Salt Lake City	6.06
Capital One Bank - Glen Allen, VA	7.27
Capital One Bank - McClean, VA	7.18
Goldman Sachs Bank	7.44
BMW Bank	5.99
Industrial and Commercial Bank	6.11
Sallie Mae Bank	7.39
State Bank of India	7.23

NOTE 2 – DEPOSITS AND INVESTMENTS (CONTINUED)

C. Balances

Summary of cash deposits and investments as of December 31, 2019, were as follows:

Deposits (Note 3. A.)	\$ 1,312,891
Investments	3,335,270
Petty cash	<u>550</u>
Total deposits and investments	<u><u>\$ 4,648,711</u></u>

Deposits and investments are presented in the December 31, 2019, basic financial statements as follows:

Statement of net position	
Cash and investments (including cash and cash equivalents)	<u><u>\$ 4,648,711</u></u>

NOTE 3 – INTERFUND ACTIVITY

During the year ended December 31, 2019, the City transferred \$32,169 from the Sewer Fund to the General Fund for various administration cost subsidies.

At December 31, 2019, due from/to other funds for the City were as follows:

- \$10,458 due to the General Fund from the Park Dedication Fund
- \$865 due to the Sewer Fund from the Storm Water Fund

The amounts represent negative cash balances at the end of the year.

Marina	12,637
	12,637
Total depreciation expense - governmental activities	\$ 199,337

NOTE 5 – LONG-TERM DEBT

A. Conduit Debt Obligations

Conduit debt obligations are certain limited obligation revenue bonds or similar debt instruments issued for the express purpose of providing capital financing for a specific third party. The City has issued revenue bonds to provide funding to private sector entities for projects deemed to be in the public interest. Although these bonds bear the name of the City, the City has no obligation for such debt. Accordingly, the bonds are not reported as liabilities in the financial statements of the City.

As of December 31, 2019, the City's outstanding conduit debt balances totaled \$43,107,303.

B. General Obligation Bonds

The City issued a general obligation (G.O.) bond to provide for financing street reconstruction and overlay projects. It is payable from property taxes levied and collected and is backed by the full faith and credit of the City.

City of Deephaven

City of Deephaven
Notes to Financial Statements

NOTE 7 – RISK MANAGEMENT

The City purchases commercial insurance coverage through the League of Minnesota Cities Insurance Trust (LMCIT) with other cities in the state which is a public entity risk pool currently operating as a common risk management and insurance program. The City pays an annual premium to the LMCIT for its insurance coverage. The LMCIT is self-sustaining through commercial companies for excess claims. The City is covered through the pool for any claims incurred but unreported, however, retains risk for the deductible portion of its insurance policies. The amount of these deductibles is considered immaterial to the financial statements.

There were no significant reductions in insurance from the previous year or settlements in excess of insurance coverage for any of the past three years.

The City's workers' compensation insurance policy is retrospectively rated. With this type of policy, final premiums are determined after loss experience is known. The amount of premium adjustment for 2019 was estimated to be immaterial based on workers' compensation rates and salaries for the year.

At December 31, 2019, there were no other claims liabilities reported in the fund based on the requirements of GASB Statement No. 10, which requires a liability for claims be reported if information prior to the issuance of the financial statements indicates it is probable a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

NOTE 8 – PENSION PLANS

The City participates in various pension plans, total pension expense for the year ended December 31, 2019, was \$119,056. The components of pension expense are noted in the following plan summaries.

The General Fund and Enterprise Funds typically liquidate the liability related to pensions.

Public Employees' Retirement Association

A. Plan Description

The City participates in the following cost-sharing multiple-employer defined benefit pension plans administered by PERA. PERA's defined benefit pension plans are established and administered in accordance with *Minnesota Statutes*, Chapters 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

General Employees Retirement Plan

All full-time and certain part-time employees of the City are covered by the General Employees Plan. General Employees Plan members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

City of Deephaven
Notes to Financial Statements

NOTE 8 – PENSION PLANS (CONTINUED)

Public Employees' Retirement Association (Continued)

A. Plan Description (Continued)

Public Employees Police and Fire Plan

The Police and Fire Plan, originally established for police officers and firefighters not covered by a local relief association, now covers all police officers and firefighters hired since 1980. Effective July 1, 1999, the Police and Fire Plan also covers police officers and firefighters belonging to a local relief association that elected to merge with and transfer assets and administration to PERA.

B. Benefits Provided

PERA provides retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the state legislature. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

General Employees Plan Benefits

General Employees Plan benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated Plan members. Members hired prior to July, 1 1989, receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for a Coordinated members is 1.2% of average salary for each of the first ten years of service and 1.7% of average salary for each additional year. Under Method 2, the accrual rate for Coordinated members is 1.7% of average salary for all years of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

Annuities, disability benefits, and survivor benefits are increased effective every January 1. Beginning January 1, 2019, the postretirement increase will be equal to 50% of the cost-of-living adjustment (COLA) announced by the SSA, with a minimum increase of at least 1% and a maximum of 1.5%. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase will receive the full increase. For recipients receiving the annuity or benefit for at least one month but less than a full year as of the June 30 before the effective date of the increase will receive a reduced prorated increase. For members retiring on January 1, 2024, or later, the increase will be delayed until normal retirement age (age 65 if hired prior to July 1, 1989, or age 66 for individuals hired on or after July 1, 1989). Members retiring under Rule of 90 are exempt from the delay to normal retirement.

City of Deephaven
Notes to Financial Statements

NOTE 8 – PENSION PLANS (CONTINUED)

Public Employees' Retirement Association (Continued)

B. Benefits Provided (Continued)

Police and Fire Plan Benefits

Benefits for the Police and Fire Plan members first hired after June 30, 2010, but before July 1, 2014, vest on a prorated basis from 50% after five years up to 100% after ten years of credited service. Benefits for Police and Fire Plan members first hired after June 30, 2014, vest on a prorated basis from 50% after ten years up to 100% after twenty years of credited service. The annuity accrual rate is 3% of average salary for each year of service. A full, unreduced pension is earned when members are age 55 and vested, or for members who were first hired prior to July 1, 1989, when age plus years of service equal at least 90.

Annuities, disability benefits, and survivor benefits are increased effective every January 1. Beginning January 1, 2019, the postretirement increase will be fixed at 1%. Recipients that have been receiving the annuity or benefit for at least 36 months as of the June 30 before the effective date of the increase will receive the full increase. For recipients receiving the annuity or benefit for at least 25 months but less than 36 months as of the June 30 before the effective date of the increase will receive a reduced prorated increase.

C. Contributions

Minnesota Statutes Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state legislature.

General Employees Fund Contributions

Coordinated Plan members were required to contribute 6.5%, of their annual covered salary in calendar year 2019, and the City was required to contribute 7.5% for Coordinated Plan members. The City's contributions to the General Employees Fund for the year ended December 31, 2019, were \$45,678. The City's contributions were equal to the required contributions as set by state statute.

Police and Fire Fund Contributions

Police and Fire member's contribution rates increased from 10.8 percent of pay to 11.3 percent and employer rates increased from 16.2 percent to 16.95 percent on January 1, 2019. The City's contributions to the Police and Fire Fund for the year ended December 31, 2019, were \$90,517. The City's contributions were equal to the required contributions as set by state statute.

City of Deephaven
Notes to Financial Statements

NOTE 8 – PENSION PLANS (CONTINUED)

Public Employees' Retirement Association (Continued)

D. Pension Costs

General Employees Fund Pension Costs

At December 31, 2019, the City reported a liability of \$469,946 for its proportionate share of the General Employees Fund's net pension liability. The City's net pension liability reflected a reduction due to the State of Minnesota's contribution of \$16 million to the fund in 2019. The State of Minnesota is considered a non-employer contributing entity and the state's contribution meets the definition of a special funding situation. The State of Minnesota's proportionate share of the net pension liability associated with the City totaled \$14,666. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the City's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2018, through June 30, 2019, relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2019, the City's proportion share was 0.0085%, which was a decrease of 0.0001% from its proportionate share measured as of June 30, 2018.

Commissions's proportionate share of the net pension liability	\$ 469,946
State of Minnesota's proportionate share of the net pension liability associated with the Commission	15,681
Total	\$ 485,627

For the year ended December 31, 2019, the City recognized pension expense of \$51,380 for its proportionate share of General Employees Plan's pension expense. Included in this amount, the City recognized \$1,098 as pension expense (and grant revenue) fir its proportionate share of the State of Minnesota's contribution of \$16 million to the General Employees Fund.

NOTE 8 – PENSION PLANS (CONTINUED)

Public Employees' Retirement Association (Continued)

D. Pension Costs (Continued)

General Employees Fund Pension Costs (Continued)

At December 31, 2019, the City reported its proportionate share of General Employees Plan's deferred outflows of resources and deferred inflows of resources, related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 13,097	\$ -
Changes in actuarial assumptions	-	37,281
Difference between projected and actual investment earnings	-	47,647
Changes in proportion	-	8,221
Contributions paid to PERA subsequent to the measurement date	22,839	-
Total	\$ 35,936	\$ 93,149

\$22,839 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2020. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending December 31,	Pension Expense Amount
2020	\$ (30,232)
2021	(39,666)
2022	(10,911)
2023	757
Total	\$ (80,052)

Notes to Financial Statements

NOTE 8 – PENSION PLANS (CONTINUED)

Public Employees' Retirement Association (Continued)

D. Pension Costs (Continued)

Police and Fire Fund Pension Costs

At December 31, 2019, the City reported a liability of \$521,346 for its proportionate share of the Police and Fire Fund's net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the City's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2018, through June 30, 2019, relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2019, the City's proportionate share was 0.0496%, which was a decrease of 0.0002% from its proportionate share measured as of June 30, 2018. The City also recognized \$6,696 for the year ended December 31, 2019, as revenue and an offsetting reduction of the net pension liability for its proportionate share of the State of Minnesota's on-behalf contributions to the Police and Fire Fund. Legislation passed in 2013 required the State of Minnesota to begin contributing \$9 million to the Police and Fire Fund each year until the plan is 90 percent funded or until the State Patrol Plan (administered by the Minnesota State Retirement System) is 90 percent funded, whichever occurs later. In addition, the state will pay \$4.5 million on October 1, 2018 and October 1, 2019 in direct state aid. Thereafter, by October 1 of each year, the state will pay \$9 million until full funding is reached or July 1, 2048, whichever is earlier.

For the year ended December 31, 2019, the City recognized pension expense of \$52,001 for its proportionate share of the Police and Fire Plan's pension expense.

At December 31, 2019, the City reported its proportionate share of the Police and Fire Fund's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual economic experience	\$ 23,085	\$ 93,470
Changes in actuarial assumptions	503,566	631,990
Difference between projected and actual investment earnings	-	108,953
Changes in proportion	-	125,803
Contributions paid to PERA subsequent to the measurement date	<u>45,259</u>	<u>-</u>
Total	<u>\$ 571,910</u>	<u>\$ 960,216</u>

City of Deephaven
Notes to Financial Statements

NOTE 8 – PENSION PLANS (CONTINUED)

Public Employees' Retirement Association (Continued)

D. Pension Costs (Continued)

Police and Fire Fund Pension Costs (Continued)

The \$45,259 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2020. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ending</u> <u>December 31,</u>	<u>Pension Expense</u> <u>Amount</u>
2020	\$ (63,430)
2021	(103,832)
2022	(257,490)
2023	(8,011)
2024	(802)
	<hr/>
Total	<u>\$ (433,565)</u>

E. Actuarial Assumptions

The total pension liability in the June 30, 2019, actuarial valuation was determined using an individual entry-age normal actuarial cost method and the following actuarial assumptions:

Inflation	2.50 % Per year
Active member payroll growth	3.25 % Per year
Investment rate of return	7.50 %

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors, and disabilitants for all plans were based on RP 2014 tables for males or females, as appropriate, with slight adjustments to fit PERA's experience. Cost of living benefit increases after retirement for retirees are assumed to be 1.25% per year for the General Employees Plan and, 1.0% per year for the Police and Fire Plan.

Actuarial assumptions used in the June 30, 2019 valuation were based on the results of actuarial experience studies. The most recent four-year experience study in the General Employees Plan was completed in 2019. The most recent four-year experience study for Police and Fire Plan was completed in 2016. Economic assumptions were updated in 2018 based on a review of inflation and investment return assumptions.

City of Deephaven
Notes to Financial Statements

NOTE 8 – PENSION PLANS (CONTINUED)

Public Employees' Retirement Association (Continued)

E. Actuarial Assumptions (Continued)

The following changes in actuarial assumptions occurred in 2019:

General Employees Fund

Changes in Actuarial Assumptions:

- The mortality projection scale was changed from MP-2017 to MP-2018.

Changes in Plan Provisions:

- The employer supplemental contribution was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The State's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

Police and Fire Fund

Changes in Actuarial Assumptions:

- The mortality projection scale was changed from MP-2017 to MP-2018.
-

Changes in Plan Provisions:

- There have been no changes since the prior valuation.

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic equity	35.5 %	5.10 %
Private markets	25	5.90
Fixed income	20	0.75
International equity	17.5	5.90
Cash equivalents	2	0.00
	<hr/>	
Total	<u>100 %</u>	

City of Deephaven
Notes to Financial Statements

NOTE 8 – PENSION PLANS (CONTINUED)

Public Employees' Retirement Association (Continued)

F. Discount Rate

The discount rate used to measure the total pension liability in 2019 was 7.5%. The projection of cash flows used to determine the discount rate assumed that contributions from Plan members and employers will be made at rates set in *Minnesota Statutes*. Based on these assumptions, the fiduciary net positions of the General Employees Fund and the Police and Fire Fund were projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

G. Pension Liability Sensitivity

The following presents the City's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

	1% Decrease in Discount Rate (6.5%)	Discount Rate (7.5%)	1% Increase in Discount Rate (8.5%)
City's proportionate share of the General Employees Fund net pension liability	\$ 772,566	\$ 469,946	\$ 220,073
	1% Decrease in Discount Rate (6.5%)	Discount Rate (7.5%)	1% Increase in Discount Rate (8.5%)
City's proportionate share of the Police and Fire Fund net pension liability/(asset)	\$ 1,147,506	\$ 521,346	\$ (6,686)

H. Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the Internet at www.mnpera.org.

City of Deephaven
Notes to Financial Statements

NOTE 8 – PENSION PLANS (CONTINUED)

Defined Benefit Pension Plan – Volunteer Fire Fighter's Relief Association

A. Plan Description

The Excelsior Firefighters Relief Association is the administrator of a single employer defined benefit pension plan established to provide benefits for members of the Excelsior Fire District per Minnesota State Statutes. The cities of Deephaven, Excelsior, Greenwood, Shorewood, and Tonka Bay are sponsoring entities of the Excelsior Fire District. At December 31, 2019, the City of Deephaven's proportionate share was 28.52%.

The Association issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Excelsior Firefighter's Association, at the City of Excelsior.

B. Benefits Provided

Full retirement benefits are payable to members who have reached age 50 and have completed 20 years of service. Partial benefits are payable to members who have reached 50 and have completed 10 years of service. Disability benefits and widow and children's survivor benefits are also payable to members of their beneficiaries based upon requirements set forth in the bylaws. These benefit provisions and all other requirements are consistent with enabling state statutes.

C. Employees Covered by Benefit Terms

At the January 1, 2019, valuation date, the following employees were covered by the benefit terms:

Retirees and beneficiaries	0
Vested terminated and transfers	13
Actives	35
	48
Total	48

D. Contributions.

Minnesota Statutes Chapter 424A.092 specifies minimum support rates required on an annual basis. The minimum support rates from the municipality and from State aids are determined as the amount required to meet the normal cost plus amortizing any existing prior service costs over a ten year period. The City's obligation is the financial requirement for the year less state aids. Any additional payments by the City shall be used to amortize the unfunded liability of the relief association. The Association is comprised of volunteers; therefore, there are no payroll expenditures (i.e. there are no covered payroll percentage calculations). During the year, the City did not recognize revenue or an expenditure on behalf payment made by the State of Minnesota for the Relief Association.

City of Deephaven
Notes to Financial Statements

NOTE 8 – PENSION PLANS (CONTINUED)

Defined Benefit Pension Plan – Volunteer Fire Fighter's Relief Association (Continued)

E. Net Pension Liability

The City's net pension liability was measured as of December 31, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

The total pension liability in the January 1, 2019, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5 %	
Salary increase	2.5	average, including inflation
Investment rate of return	6.0	net of pensions plan investment expense: including inflation

The value of death benefits is similar to the value of the retirement pension. Because of low retirement ages, the plan assumes no pre-retirement mortality. Post-retirement mortality does not apply as the benefit structure and form of payment do not reflect lifetime benefits.

The long-term return on assets has been set based on the plan's target investment allocation along with long-term return expectations by asset class. When there is sufficient historical evidence of market outperformance, historical average returns may be considered. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of the measurement date are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	0.00 %	2.25 %
Fixed income	31.00	3.80
Equities	69.00	7.00
	<hr/>	
Total	<u>100.00 %</u>	

The discount rate used to measure the total pension liability was 6%. Assets were projected using expected benefit payments and expected asset returns. Expected benefit payments by year were discounted using the expected asset return assumption for years in which the assets were sufficient to pay all benefit payments.

G. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended December 31, 2019, the City recognized pension expense of \$15,675. At December 31, 2019, the City reported deferred outflows of resources and deferred inflows of resources related to the Relief Association Pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Liability gains/losses	\$ -	\$ 60,814
Investment gains/losses	75,941	-
Contributions paid subsequent to the measurement date	44,511	-
Total	\$ 120,452	\$ 60,814

\$44,511 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2020. Other amounts reported as deferred outflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending December 31,	Total
2020	\$ 14,453
2021	(9,229)
2022	(6,429)
2023	31,263
2024	(11,469)
Thereafter	(3,462)
Total	\$ 15,127

City of Deephaven
Notes to Financial Statements

NOTE 9 – COMMITMENTS

Legal Claims

The City had legal claims pending at year-end. Although the outcome of these lawsuits is not presently determinable, the City's management believes the City will not incur any material monetary loss resulting from these claims. No loss has been recorded on the City's financial statements relating to these claims.

NOTE 10 – POST EMPLOYMENT HEALTH CARE PLAN

The General Fund and Enterprise Funds typically liquidate the liability related to the post employment health care plan.

A. Plan Description

The City's defined benefit OPEB plan provides a single-employer defined benefit health care plan to eligible retirees and their spouses. The plan offers medical coverage. It is the City's policy to periodically review its medical coverage, and to obtain requests for proposals in order to provide the most favorable benefits and premiums for City employees and retirees.

B. Benefits Provided

Retirees and their spouses can participate in the health care plan at the same premium rate as City employees. Retirees and their spouses are responsible for 100% of these rates. This results in the retirees receiving an implicit rate subsidy.

C. Contributions

Contribution requirements are established by the City, based on the contract terms with the insurance provider. The required contributions are based on projected pay-as-you-go financing requirements. For 2019, the City contributed \$14,341 to the plan. As of January 1, 2018, there were two retirees receiving health benefits from the City's health plan.

D. Members

As of January 1, 2018, the following were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	2
Inactive employees entitled to but not yet receiving benefit payments	0
Active employees	<u>18</u>
Total	<u><u>20</u></u>

City of Deephaven
Notes to Financial Statements

NOTE 10 – POST EMPLOYMENT HEALTH CARE PLAN (CONTINUED)

E. Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of January 1, 2018, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Key Methods and Assumptions Used in Valuation of Total OPEB Liability

Discount rate	3.3% as of January 1, 2018 and 3.8% as of January 1, 2019
Salary increases	3.00%
Inflation	2.50%
Healthcare cost trend increases	6.5% initially, grading to 5.0% over six years
Mortality assumption	RP 2014 White Collar Mortality Tables with MP 2017 Generational Improvement Scale (with Blue Collar adjustment for Police Personnel)

The discount rate used to measure the total OPEB liability was 3.8% based on 20-year municipal bond rates.

F. Total OPEB Liability

The City's total OPEB liability of \$160,209 was measured as of January 1, 2019, and was determined by an actuarial valuation as of January 1, 2018.

Changes in the total OPEB liability are as follows:

	<u>Total OPEB Liability</u>
Balances at January 1, 2019	<u>\$ 159,774</u>
Changes for the year	
Service cost	12,332
Interest	5,462
Changes in assumptions	(4,079)
Benefit payments	<u>(13,280)</u>
Net changes	<u>435</u>
Balances at December 31, 2019	<u><u>\$ 160,209</u></u>

The General Fund and Enterprise Funds typically liquidate the liability related to OPEB.

City of Deephaven

**H. OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources
 Related to OPEB**

\$14,341 reported as deferred outflows of resources related to OPEB resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ended December 31, 2020. Other amounts reported as deferred outflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ended December 31,	Total
2020	\$ (510)
2021	(510)
2022	(510)
2023	(510)
2024	(510)
Thereafter	(1,019)
Total	\$ (3,569)

NOTE 11 – NEW STANDARDS ISSUED BUT NOT YET IMPLEMENTED

GASB Statement No. 87, Leases establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments’ leasing activities. This statement will be effective for the year ending December 31, 2020.

Notes to Required Supplementary Information

GENERAL EMPLOYEES FUND

2019 Changes

Changes in Actuarial Assumptions

- The mortality projection scale was changed from MP-2017 to MP-2018.

Changes in Plan Provisions

- The employer supplemental contribution was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The State's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

2018 Changes

Changes in Actuarial Assumptions

- The mortality projection scale was changed from MP-2015 to MP-2017.
- The assumed benefit increase was changed from 1.0% per year through 2044 and 2.5% per year thereafter to 1.25% percent per year.

Changes in Plan Provisions

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.
- Interest credited on member contributions decreased from 4.00% to 3.00%, beginning July 1, 2018.
- Deferred augmentation was changed to 0.00%, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Contribution stabilizer provisions were repealed.
- Postretirement benefit increases were changed from 1.00% per year with a provision to increase to 2.50% upon attainment of 90.00% funding ratio to 50.00% of the Social Security Cost of Living Adjustment, not less than 1.00% and not more than 1.50%, beginning January 1, 2019.
- For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age; does not apply to Rule of 90 retirees, disability benefit recipients, or survivors.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2017 Changes

Changes in Actuarial Assumptions

- The CSA loads were changed from 0.8% for active members and 60% for vested and non-vested deferred members. The revised CSA loads are now 0.0% for active member liability, 15% for vested deferred member liability and 3% for non-vested deferred member liability.
- The assumed post-retirement benefit increase rate was changed from 1.0% per year for all years to 1.0% per year through 2044 and 2.5% per year thereafter.

Changes in Plan Provisions

- The State's contribution for the Minneapolis Employees Retirement Fund equals \$16,000,000 in 2017 and 2018, and \$6,000,000 thereafter.

City of Deephaven
Notes to Required Supplementary Information

GENERAL EMPLOYEES FUND (CONTINUED)

2017 Changes (Continued)

Changes in Plan Provisions (Continued)

- The Employer Supplemental Contribution for the Minneapolis Employees Retirement Fund changed from \$21,000,000 to \$31,000,000 in calendar years 2019 to 2031. The State's contribution changed from \$16,000,000 to \$6,000,000 in calendar years 2019 to 2031.

2016 Changes

Changes in Actuarial Assumptions

- The assumed post-retirement benefit increase rate was changed from 1.0% per year through 2035 and 2.5% per year thereafter to 1.0% per year for all future years.
- The assumed investment return was changed from 7.9% to 7.5%. The single discount rate was changed from 7.9% to 7.5%.
- Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth, the inflation were decreased by 0.25% to 3.25% for payroll growth and 2.50% for inflation.

2015 Changes

Changes in Actuarial Assumptions

- The assumed post-retirement benefit increase rate was changed from 1.0% per year through 2030 and 2.5% per year thereafter to 1.0% per year through 2035 and 2.5% per year thereafter.

Changes in Plan Provisions

- On January 1, 2015, the Minneapolis Employees Retirement Fund was merged into the General Employees Fund, which increased the total pension liability by \$1.1 billion and increased the fiduciary plan net position by \$892 million. Upon consolidation, state and employer contributions were revised; the State's contribution of \$6.0 million, which meets the special funding situation definition, was due September 2015.

City of Deephaven
Notes to Required Supplementary Information

POLICE AND FIRE FUND

2019 Changes

Changes in Actuarial Assumptions

- The morality projection scale was changed from MP-2017 to MP-2018.

2018 Changes

Changes in Actuarial Assumptions

- The mortality projection scale was changed from MP-2016 to MP-2017.

Changes in Plan Provisions

- Postretirement benefit increases were changed to 1.00% for all years, with no trigger.
- An end date of July 1, 2048 was added to the existing \$9.0 million state contribution.
- New annual state aid will equal \$4.5 million in fiscal years 2019 and 2020, and \$9.0 million thereafter until the plan reaches 100% funding, or July 1, 2048, if earlier.
- Member contributions were changed from 10.80% to 11.30% of pay, effective January 1, 2019 and 11.80% of pay, effective January 1, 2020.
- Employer contributions were changed from 16.20% to 16.95% of pay, effective January 1, 2019 and 17.70% of pay, effective January 1, 2020.
- Interest credited on member contributions decreased from 4.00% to 3.00%, beginning July 1, 2018.
- Deferred augmentation was changed to 0.00%, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2017 Changes

Changes in Actuarial Assumptions

- Assumed salary increases were changed as recommended in the June 30, 2016 experience study. The net effect is proposed rates that average 0.34% lower than the previous rates.
- Assumed rates of retirement were changed, resulting in fewer retirements.
- The CSA load was 30% for vested and non-vested deferred members. The CSA has been changed to 33% for vested members and 2% for non-vested members.
- The base mortality table for healthy annuitants was changed from the RP-2000 fully generational table to the RP-2014 fully generational table (with a base year of 2006), with male rates adjusted by a factor of 0.96. The mortality improvement scale was changed from Scale AA to Scale MP-2016. The base mortality table for disabled annuitants was changed from the RP-2000 disabled mortality table to the mortality tables assumed for healthy retirees.
- Assumed termination rates were decreased to 3% for the first three years of service. Rates beyond the select period of three years were adjusted, resulting in more expected terminations overall.
- Assumed percentage of married female members was decreased from 65% to 60%.
- Assumed age difference was changed from separate assumptions for male members (wives assumed to be 3 years younger) and female members (husbands assumed to be 4 years older) to the assumption that males are 2 years older than females.

City of Deephaven
Notes to Required Supplementary Information

2017 Changes (Continued)

Changes in Actuarial Assumptions (Continued)

- The assumed percentage of female members electing Joint and Survivor annuities was increased.
- The assumed post-retirement benefit increase rate was changed from 1% for all years to 1% per year through 2064 and 2.5% thereafter.
- The single discount rate was changed from 5.6% per annum to 7.5% per annum.

2016 Changes

Changes in Actuarial Assumptions

- The assumed post-retirement benefit increase rate was changed from 1.0% per year through 2037 and 2.5% thereafter to 1.0% per year for all future years.
- The assumed investment return was changed from 7.9% to 7.5%. The single discount rate changed from 7.9% to 5.6%.
- The single discount rate changed from 7.90% to 5.60%.
- The assumed future salary increases, payroll growth, and inflation were decreased by 0.25% to 3.25% for payroll growth and 2.50% for inflation.

2015 Changes

Changes in Plan Provisions

- The post-retirement benefit increase to be paid after attainment of the 90% funding threshold was changed, from inflation up to 2.5%, to a fixed rate of 2.5%.

Changes in Actuarial Assumptions

- The assumed post-retirement benefit increase rate was changed from 1.0% per year through 2030 and 2.5% per year thereafter to 1.0% per year through 2037 and 2.5% per year thereafter.

POST EMPLOYMENT HEALTH CARE PLAN

2019 Changes

Changes in Actuarial Assumptions

- The discount rate was changed from 3.3% to 3.8% as of January 1, 2019.

STATISTICAL SECTION

City of Deephaven Statistical Section

This part of the City's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information say about the City's overall financial health.

Contents

Financial Trends

These schedules contain trend information to help the reader understand how the City's financial performance has changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the factors tax affecting the City's ability to generate its individual income sales.

Debt Capacity

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Report for the relevant year.

Overlapping rates are those of local and county governments that apply to property owners within the City of Deephaven. Not all overlapping rates apply to all City of Deephaven property owners.

The percentage of overlapping debt applicable is estimated using taxable market property values. Applicable percentages were estimated by determining the portion of the county's taxable market value that is within the City's boundaries and dividing it by the county's total taxable market value and similarly for the other governmental entities with overlapping debt.
