1.02 Rules of Construction. Unless the context otherwise indicates:

(a) Words importing the singular shall include the plural and vice versa, and words importing the masculine gender shall include the feminine and neuter genders as well;

(b) All references to Articles, Sections or Exhibits are references to Articles, Sections and Exhibits of this Agreement;

(c) All references to officers are references to officers of the Town or BBAI;
and

(d) The headings and Table of Contents herein are solely for convenience of reference and shall not constitute a part of this Agreement nor shall they affect its meanings, construction or effect.

ARTICLE II

BBAI'S COMMITMENTS

In return for the site conveyances set forth herein, which are a competitive necessity for BBAI to redevelop the Site in the Town, the BBAI commits to certain Performance Commitments related to construction timelines, and incrementally increased taxes in the Town. If not for the provision of the site conveyances contemplated by this Agreement, BBAI would not redevelop the Site in the Town. The Parties acknowledge and agree that the consideration for the Town to enter into this Agreement is the expectation that BBAI will meet or exceed these Performance Commitments.

Specifically, the BBAI agrees to meet or exceed the following Performance Commitments:

- (a) BBAI shall have the responsibility to design, obtain all necessary permits for, construct and market the Facilities within Tract A for retail, commercial, and professional services use as more fully described at Exhibit B (the "Project"). It is understood and agreed to by the Parties that BBAI has the sole responsibility and discretion as to the design, construction and marketing of the Project, with BBAI's responsibilities being set forth in more detail in Article IV herein;
- (b) Start of Construction shall be achieved within three (3) years of the Effective Date; and
- (c) The BBAI project shall create five (5) new jobs at Facilities within Tract A within five (5) years of the Effective Date.

Confirmations of BBAI's attainment as to Performance Commitments shall be as follows. The amount of Direct Investment shall be the amount of the tax value for all property owned by BBAI and tenants of Facilities at the Site as shown on its Real Property Tax Listings, for each year that new investments are made. The Town may in its discretion require other documentation to verify the attainment of the new jobs and of these other Performance Commitments.

ARTICLE III

SITE TRANSFERS

3.01 Ownership of Site. The Town is the current owner of the Site, as more particularly described in Exhibit A. Provided, however, that the Site descriptions in Exhibit A are subject to minor adjustments prior to any conveyances, based upon engineering analyses by BBAI, to the extent that such adjustments are mutually agreed to by all of the Parties to this

Agreement. The Town hereby represents and warrants that it is seized of and has the right to convey the Site in fee simple, that the Site is free and clear of all liens and encumbrances other than the Identified Encumbrances, and that the title to the Site is marketable.

3.02 Conveyance of Tract A. Within thirty (30) Business Days of the Effective Date, or at such other date as the parties mutually agree, the Town will deliver to BBAI a special warranty deed for Tract A (the "Tract A Transfer Deed"). BBAI has contracted for an ALTA survey to be drawn for Tract A, which will also be used to craft the legal description of Tract A for the Tract A Transfer Deed (the "Survey"). The cost of the Survey shall be borne on BBAI. The intent of this Agreement is that Prospective Companies shall occupy the Facilities, through leases, after the redevelopment of Tract A. The Parties agree that Tract A should revert to the Town's ownership in the future if BBAI (i) fails to cause the Start of Construction within three (3) years of the Effective Date or (ii) fails to lease facilities to prospective companies which will create at least five (5) new jobs on Tract A within five (5) years of the Effective Date, with ((i) and (ii) above collectively referred to as the "Performance Commitments").

To secure the performance of BBAI as to the Start of Construction of the Facilities on Tract A, the Town shall have a deed of trust on Tract A, substantially in the form attached hereto on Exhibit C, and which will be subordinated to any deed of trust BBAI enters into to secure a loan for the Project (the "Tract A Deed of Trust"). If BBAI fails to cause the Start of Construction within three (3) years of the Effective Date or unless extended by an act of God clause as more specifically set forth in the Tract A Deed of Trust, then the Town may exercise its rights under the Tract A Deed of Trust to retake ownership of Tract A and all improvements, therefore, upon the Start of Construction, provided that the Town has not initiated proceedings to exercise its rights under the Tract A Deed of Trust, the Town shall take all necessary actions which will provide for the cancellation of the Tract A Deed of Trust.

3.04 Expenses. The Town will cooperate with BBAI in obtaining title insurance for Tract A, but BBAI shall be responsible for all fees and expenses in connection therewith. The Deeds by the Town described in this Article III are the Town's full and only commitment to the costs of the Project. It is the sole responsibility of BBAI to find funding sources, grants and/or loans, or financing for the full costs of the Project.

ARTICLE IV

RESPONSIBILITIES OF BBAI

The Parties agree that the development of the Site shall be solely BBAI's responsibility, which will include but not be limited to the following:

- (a) Arranging for all additional funds necessary to complete the Facilities, administering all grant obligations related to any such funding sources, and being solely responsible for the repayment of any loan proceeds or grant funds, as may be required by the terms of any such loans or grants.

- (b) Selecting through whatever bidding or negotiation process is deemed appropriate by BBAI, in its sole discretion, all design firms, contractors, service providers, and other professionals to assist in the design, construction and marketing of the Facilities;
- (c) Making all final decisions as to the design of the Facilities;
- (d) Overseeing the construction of the Facilities, including agreeing to any change orders which may be necessary during the construction of the Facilities;
- (e) Obtaining all necessary permits and regulatory approvals for the Facilities;
- (f) Marketing the Facilities, including making decisions as to specific businesses to target for occupancy of the Facilities;
- (g) Making the final decision as to which Prospective Companies should be considered to take up occupancy at a Facility on the Site, and the lease or sale terms that will be offered to such Prospective Companies;
- (h) Ensuring the redevelopment Facilities is carried out in accordance with all applicable State and local laws and regulations;
- (i) Ensuring (1) that the Facilities do not materially encroach upon nor overhang any easement or right-of-way in such a way that interferes with such easement or right of way and (2) that the Facilities, when erected, will be wholly within any applicable building restriction lines, however established, and will not violate applicable use of other restrictions contained in prior conveyances or applicable protective covenants or restrictions;
- (j) Cause all utility lines, and streets serving the Site, which are located within the metes and bounds of the Site, to be completed in accordance with health department standards and other applicable regulations of any governmental agency having jurisdiction;
- (k) Pay all taxes and all charges for utility services furnished to or used on or in connection with the Site and the Facility;
- (l) Bear all risk of loss to and condemnation of the Site and the Facility, after conveyance of the Transfer Deed for the Site to BBAI; and
- (m) Observe and comply promptly with all current and future orders of all courts and regulatory bodies having jurisdiction over the Site or any portion thereof (or be diligently and in good faith contesting such orders), and all current and future requirements of all insurance companies writing policies covering the Site or any portion thereof.

ARTICLE V

REPORTS TO TOWN

BBAI will provide regular reports to the Town, no less often than semi-annually, as to the status of the Project in terms of its design, construction, and marketing. Such reports shall be made to senior appointed staff of the Town, and/or the Town Council.

ARTICLE VI

INDEMNIFICATION

BBAI hereby agrees to indemnify, protect and save the Town and its officers, directors and employees harmless from all liability, obligations, losses, claims, damages, actions, suits, proceedings, costs and expenses, including reasonable attorneys' fees, arising out of, connected with, or resulting directly or indirectly from the Project or the transactions contemplated by or relating to this Agreement, including without limitation, the possession, condition, construction or use thereof, insofar as such matters relate to events subject to the control of BBAI and not the Town. The indemnification arising under this Article shall survive the Agreement's termination.

ARTICLE VII

TERMINATION OF AGREEMENT

Upon the occurrence of any of the following events, this Agreement shall be terminated:

- a. Failure of BBAI to cause the Start of Construction at the Site within three (3) years of the Effective Date as provided for in Article III herein; or
- b. Failure of BBAI or a Prospective Company to create five (5) new jobs at Facilities within Tract A within five (5) years of the Effective Date.

In the event this Agreement is terminated, BBAI shall convey the Site, or portions thereof, back to the Town in accordance with the provisions of Article III. Upon termination, this Agreement shall immediately terminate, and thereafter, the Town and BBAI shall have no further obligation to perform under this Agreement.

ARTICLE VIII

ASSIGNMENT

Neither party shall sell or assign any interest in or obligation under this Agreement without the prior express written consent of all the parties. Provided, however, that this Agreement may be assigned by BBAI to another nonprofit corporation affiliated with BBAI, without the consent of the Town, provided that BBAI will guarantee the performance by the affiliated nonprofit of the obligations due under this Agreement.

ARTICLE IX

LIMITED OBLIGATION OF TOWN

NO PROVISION OF THIS AGREEMENT SHALL BE CONSTRUED OR INTERPRETED AS CREATING A PLEDGE OF THE FAITH AND CREDIT OF THE TOWN WITHIN THE MEANING OF ANY CONSTITUTIONAL DEBT LIMITATION. NO PROVISION OF THIS AGREEMENT SHALL BE CONSTRUED OR INTERPRETED AS DELEGATING GOVERNMENTAL POWERS NOR AS A DONATION OR A LENDING OF THE CREDIT OF THE TOWN WITHIN THE MEANING OF THE STATE CONSTITUTION. THIS AGREEMENT SHALL NOT DIRECTLY OR INDIRECTLY OR CONTINGENTLY OBLIGATE THE TOWN TO MAKE ANY PAYMENTS BEYOND THOSE APPROPRIATED IN THE TOWN'S SOLE DISCRETION FOR ANY FISCAL YEAR IN WHICH THIS AGREEMENT SHALL BE IN EFFECT. NO PROVISION OF THIS AGREEMENT SHALL BE CONSTRUED TO PLEDGE OR TO CREATE A LIEN ON ANY CLASS OR SOURCE OF THE TOWN'S MONEYS, NOR SHALL ANY PROVISION OF THE AGREEMENT RESTRICT TO ANY EXTENT PROHIBITED BY LAW, ANY ACTION OR RIGHT OF ACTION ON THE PART OF ANY FUTURE TOWN GOVERNING BODY. TO THE EXTENT OF ANY CONFLICT BETWEEN THIS ARTICLE AND ANY OTHER PROVISION OF THIS AGREEMENT, THIS ARTICLE SHALL TAKE PRIORITY.

Utility Services – Water & Sewer - Don Edwards, Ricky Smith, Jerimey Sykes, Sherry Lanier, Nicholas Kauffman & Horace Wyatt (PT)

All routine daily sampling, testing, monitoring, and documentation requirements were completed for both the drinking water and wastewater conveyance operations. Staff responded and repaired 2 leaks and performed 5+ service calls for various reasons. Additionally, there were 198 meter reads/re-reads, and 12+ locate tickets for the month. Three taps were provided to service customers. Flushing of sewer lines was performed at 1 residence on the town's side of the clean-out and 1700 linear feet of line was flushed in accordance with our NPDES permit. At our Lower Street Lift Station the motor and gearbox were removed and replaced with identical equipment from our Martin Luther King Drive Lift Station. The Water Department team continues to perform a considerable amount of housekeeping in all phases of their operation, including vehicles, work areas and storage. Multiple personnel have been participating in additional certification training.

Wastewater Treatment Plant - Hugh Bledsoe

All routine sampling, testing and general plant operating processes were executed as required. Plant equipment preventative maintenance has been completed as required. Our Sequencing Batch Reactors (SBR) Programmable Logic Controllers (PLC) failed on the #1 SBR Decanter motor. Motor was replaced and SBR is currently operational. The decanter on SBR #2 is not operational and replacement parts are proving difficult to locate. The decanter can be operated manually (not optimal). Hugh Bledsoe is trying to locate a screw jack for the decanter. EL Robinson has delivered partially completed plans for the plant rehabilitation and expansion project. We are expecting the completed full set by mid-December. No violations were reported in the NPDES Discharge Monitoring Report for the month. In an effort to reduce sludge removal events sludge has been thickened. Biosolids remaining from the last sludge removal effort in the first half of 2022 have been completely removed from the drying beds and disposed of through the landfill. We have continued to discuss SCADA upgrades with Dorsett Technologies in conjunction with the plant upgrade. Ideally we could execute the immediate upgrade on existing systems and be reimbursed from the upgrade project funding when the new equipment is added to the SCADA. We are discussing it with DEQ for direction.

Facilities Management – Greg Taylor

Mr. Taylor has been very busy chasing electrical repairs and lighting installation efforts throughout town. Lighting for the Christmas season has been put out for everyone's enjoy through the season. Many GFCI outlets needed to be replaced in downtown due to wear and tear. A new blower motor was installed at Public Works for HVAC controls in the conference room. Lights on the Farmers Market sign at King St and Martin Luther King Dr was repaired. A couple of public rest facilities toilets and sinks were repaired just before the Pork and Beats Festival. Several other popup maintenance and small repair issues were addressed. While paving has been active in town Mr. Taylor has been tracking and measuring patches and pavement work to ensure appropriate billing by the contractor. Additionally, Greg has started his training for his level 2 wastewater operators certification.
