**BOROUGH OF ENGLEWOOD CLIFFS  
WORK NOTICE – SANITARY SEWER IMPROVEMENTS**

The Mayor and Council are pleased to announce the start of long-awaited **Borough-wide sanitary sewer improvements**, beginning with initial **Phase 0 spot lining repairs**.

As part of this work, the Borough's contractor, Montana Construction Corp. Inc., will be performing underground repairs at the following location:

**Location:** Hudson Terrace (from Sherwood Avenue to Kahn Terrace)

**Date:** Thursday, April 30, 2026

**Time:** 7:00 AM – 5:00 PM

These initial repairs represent the first step in a larger, multi-phase infrastructure initiative aimed at strengthening the Borough's sanitary sewer system and addressing long-standing needs in a responsible and proactive manner.

This phase of work will involve targeted underground repairs with minimal surface disruption, and no full roadway excavation is anticipated at this time.

Residents may experience temporary traffic impacts during work hours. Traffic control will be coordinated on-site to ensure safety for motorists and pedestrians.

The Borough thanks residents for their patience and cooperation as this important work begins. Additional phases of the project will follow in the coming months as part of the Borough's continued investment in critical infrastructure.
