

Is anybody willing and able to volunteer to help with the current plans to reduce the chances of potential flooding from the horrible Halfway Hill Fire?

Fillmore City is asking if you are available to serve in anyway you possibly can, please give us a call at the office where we will get your name, phone number, availability and what you can and are willing to do.

We are doing our due diligence to plan, organize and to work together as a community to make this as effective as possible.

We ask that you don't try and do any of the work on your own accord. Everything needs to be documented and done on the city's property to get help with funding and with FEMA.
