

TOWN OF FORTVILLE WATER CONSERVATION WATERING SCHEDULE & RESTRICTIONS

Due to the dry conditions as well as the Town of Fortville constructing the new water plant, in Memorial Park, we need to conserve as much water as possible by using the LAWN & LANDSCAPE WATERING SCHEDULE below. Abiding by the watering schedule will allow our water tower levels to maintain the necessary levels & pressure to take care of all our citizens without concern.

Please do your part in helping your community. Thank you!
