ADIRONDACK REGIONAL AIRPORT

SERVING NORTHERN NEW YORK

DATE: December 02, 2021

TO: Harriestown Town Board

FROM: Corey Hurwitch, Airport Manager

SUBJECT: Pickup Truck

After going through a mini bid process with the NYS OGS marketplace, we did not obtain any bids for an exact match of our requested vehicle. We did receive one bid for a truck that closely matched our request. The bid from Chevy of Smithtown is for \$60,654.14. After a review from our mechanic, he reported the options not available on the Smithtown Vehicle are not very significant and the important specifications (motor, plow, etc.) are met. The vehicle being bid is in transit to Chevy of Smithtown so it would be a short wait for delivery. Attached to this report are the specifications for the bid vehicle.

ADIRONDACK REGIONAL AIRPORT

Gateway to the Adirondacks

DATE: December 02, 2021

TO: Harriestown Town Board

FROM: Corey Hurwitch, Airport Manager

SUBJECT: Summary report for period ending 8/20/21

- We've kept busy of the past couple of weeks with winter weather operations starting as well as continued above average aircraft operations. The winter weather increases our job duties to include not only plowing, sweeping, sanding, snow-blowing and condition reporting but also includes deicing and increased aircraft towing for daily hangar use.
- While our fuel sales have decreased due to the slower season being upon us, the Jet A sales are still at or near record levels. Keeping fuel on hand has become more manageable, though deliveries are still in need of scheduling several days in advance.
- We had an incident in November involving an aircraft that was prop started. After the engine started, the brakes of the aircraft did not hold and the pilot was unable to get into the aircraft. The aircraft rolled unoccupied across the apron and hit a propane tank. Luckily the propane tank did not puncture or explode. The propane tank has been switched out with another tank by Adirondack Energy. The aircraft has been removed by the owner and is undergoing evaluation. We have ordered boulders and are awaiting delivery from Trudeau Sand and Gravel to place around propane tanks on the airfield.
- The request has been made to Luck Brothers to paint the interior of the tank. Luck Brothers reported they would send the request onto their subcontractor. No additional response has occurred to date, though painting can not feasibly be completed until spring when the temperatures rise.
- The FAA has denied the request for modification of National Fire Protection Association (NFPA) standards regarding the overfill protection citing they believe the Airport Manager cannot act as the Authority Having Jurisdiction. A new compliance letter from the FAA is being issued with an expected September 2022 deadline to have the work completed. Delta Airlines has filed Tentative Interim Amendment (TIA) 1610 with the NFPA to extend modification deadlines to June 2, 2023. The NFPA technical committee approved the TIA and it now is awaiting consideration from the NFPA Standards Council. It is anticipated the final decision on TIA 1610 will occur Dec 7th-8th at the NFPA standards council meeting.
- Our equipment challenges have continued with Oshkosh. We have a castor wheel that is in need of replacement and Oshkosh is advising of a 200 day lead time. In addition, we are awaiting a seal (for sweeper) and a regulator (for blower) from Oshkosh with no indication when they may be in. This is not to mention the outrageous pricing on parts from Oshkosh.

ADIRONDACK REGIONAL AIRPORT

Gateway to the Adirondacks

- The FAA has granted an extension request to complete the runway 5/23 edge markings. The extension now gives us until the end of January to complete the markings. Phase 2 of runway reconstruction includes painting of these markings so hopefully this will keep us from having to paint them on our own prior to milling them up for the construction.
- In addition to the edge markings and the NFPA 407 considerations, the only outstanding item on from our FAA inspection is to obtain more Aqueous Film Forming Foam (AFFF) for reserve for the fire truck. This is on order from the Ansul distributor.
