BOATING SAFETY TIPS FOR CHILDREN

Always have your children wear a U.S. Coast Guard approved flotation device (PFD) while on boats, around open bodies of water or participating in water sports.

Remember that water wings, noodles and other swimming aids are fun toys for kids but should never be used in place of approved PFDs.

Explain basic boat rules and have everyone follow them. Children need to understand and follow rules such as keeping their hands and feet inside the boat at all times and never run on a boat.

Every child is different, so enroll children in swimming lessons when you feel they are ready.

Teach children that swimming in open water is not the same as swimming in a pool. They need to be aware of uneven surfaces, currents, weeds and changing weather. Adult supervision is a must.

Let your teen operate a boat only in a supervised setting and in adherence to the laws on Lake Como. Laws regarding the operation of a boat or watercraft vary from community to community.

Spending time with friends on the lake is a favorite summer activity. Following the above precautions will help ensure you and your children have a safe boating season. The Town of Geneva Police Department encourages everyone to enjoy Lake Como and practice safe boating. Their boat patrol officer is available to answer any questions that you may have and to ensure a safe boating season for all.
