Mayor Bodily's Report

I had the opportunity to attend the Fireman's Banquet this month, and I want to express my gratitude for the many volunteers, both current and past, who have helped protect our town and its people. We have 257 years of combined service on our active roster right now. That kind of dedication comes from people who care deeply about this town and the people in it. We are lucky to have them.

If anyone has ever considered getting involved, I could not recommend a better group to be part of. It is a great crew. Reach out to Jake Johnson if you are interested or would like to learn more about what it takes.

We are currently having a hard time filling an open public works position. If you or someone you know is interested in serving the community in a hands-on way, please contact the city office.

Planning for the 4th of July is already underway. It takes more people than most realize to pull that event together. The good news is we have streamlined a lot over the last few years, and there is more structure and help in place than ever before. That said, the events and traditions that make Lewiston what it is do not organize themselves. They depend on volunteers. If you are willing to help, even for a short time, please reach out. Even a small amount of time makes a difference and adds up quickly.

I would also encourage everyone to keep an eye on the state legislative sessions. Many decisions made at that level directly impact small cities like ours, and they are not always in our favor. Staying informed matters.

As always, thank you for caring about our community and for being involved.
