MAYOR BODILY'S REPORT

I just want to start by saying thank you to everyone who helped make this year's Fourth of July celebration a success. It takes a lot of people willing to step up every year, and we couldn't do it without all of our volunteers.

I especially want to recognize our Public Works crew and our office staff. They put in a lot of extra hours before, during, and after the celebration to get everything ready, keep things running smoothly, and clean everything up afterward. I know there were some long days, and I really appreciate everything they did. Events like this don't happen without a lot of work behind the scenes, and they did a great job.

I also want to thank everyone for celebrating responsibly. As everyone knows, the Governor's emergency order restricted fireworks across much of the state. After looking at our local conditions, we chose to continue allowing fireworks in Lewiston, and our community responded exactly how we hoped. We didn't have a single Fire or EMS call related to fireworks over the holiday, and I appreciate everyone using good judgment so we could safely enjoy the celebration.

A special thanks to Landon Hansen for bringing in and putting up the two large American flags for the Fourth of July. They looked incredible and were a great addition to the celebration. We really appreciate the time and effort he put into making that happen.

Finally, I wanted to let everyone know that I was recently selected to serve on the Fire District Board of Trustees. This gives Lewiston, along with the surrounding smaller communities, a seat at the table as decisions are made about the future of the fire district. I'm looking forward to representing our community and making sure our voice is heard.

-Mayor Bodily

Registration: June 22nd - July 19th
Games Begin: Second week of August
Fee: \$350 per team
Mon - Coed Wed - Coed
Tues - Men's League Thurs - Men's open/Industrial

DURING A HEAT WAVE

- ✓ **Slow down:** Reduce, eliminate or reschedule strenuous activities until the coolest time of the day. Children, seniors and anyone with health concerns should stay in the coolest available place, not necessarily indoors.
- ✓ **Dress for summer:** Wear lightweight, loose-fitting, light-colored clothing to reflect heat.
- ✓ **Eat light:** Choose easy-to-digest foods such as fruit or salads. If you pack food, put it in a cooler or carry an ice pack. Meats and dairy products can spoil quickly in hot weather.
- ✓ **Drink plenty of water (not very cold):** Focus on non-alcoholic and decaffeinated fluids. Drink water even if you don't feel thirsty. If you're on a fluid-restrictive diet or have a problem with fluid retention, consult a physician before increasing consumption of fluids.
- ✓ **Use air conditioners:** Spend time in air-conditioned locations such as malls and libraries if your home isn't air conditioned.
- ✓ **Use portable electric fans:** Fans exhaust hot air from rooms or draw in cooler air. Do not direct the flow of portable electric fans toward yourself when room temperatures are hotter than 90°F. The dry blowing air will dehydrate you faster, endangering your health.
- ✓ **Minimize direct exposure to the sun.** Sunburn reduces your body's ability to dissipate heat. Take a cool bath or shower.
- ✓ **Do not take salt tablets:** Only take salt tablets if recommended by a physician.
- ✓ **Be aware of infants, older, sick or frail people and pets.** Never leave children, disabled adults or pets in a car.
- ✓ **For more heat health tips,** go to the Centers for Disease Control and Prevention: cdc.gov

A Message from the Water Department

Using water efficiently is easier than you think. When watering outdoors, remember:

Water green, not gray. Adjust your sprinklers so that they don't spray sidewalks, gutters, and driveways and replace any that are broken, crooked, or clogged. There shouldn't be standing water on impermeable surfaces if you're watering correctly.

Timing is everything. Watering your lawn before 10 a.m. or after 6 p.m. saves water because less water evaporates.

Landscapes require less water in the spring and fall, and don't need any water if it has rained.

Rip your strip. Save water by removing hard to water areas from your parking strip. Native plants and drought-tolerant grass varieties use less water because they are better adapted to our arid climate.
