Item 1—Final photo selection for Community Center Decorations

- Council Members looked at potential images on the TV in the meeting room and debated the quality of each one—each photo was judged based on image quality, if the photo contained people, and location. The purpose of looking at each one was to determine eligibility for reproduction and framing. Ultimately the images chosen will be hung in the Community Center.
- Council Member Dawe suggested having different eras of the bridge over the Apalachee River including capturing the flood and non-flood stages of the river.
- Council Member Kurtz inquired about frames, if the Town should get them professionally done or get them at Michaels/Hobby Lobby
- Mayor Bradberry reminded the Council that the money for framing and printing does not come from SPLOST.
- Mayor Bradberry stated that most of images they were looking at are owned by the man that runs the Historic High Shoals facebook page and he agreed to let the Town scan the originals. Mayor Bradberry thinks there might be information on the back of the images and if so, the Town should capture that information.
- Council Member Dawe suggested as a way to memorialize former council members and mayors a photo from the time period in which they served could be put next to their photo.
- Council Member Evans recommended getting some photos of the African American community. She is going to research.
- Council Members agreed to set aside \$5,000 to pay for framing, matting, and scanning of images
