Worker Connection Program

Department of Workforce Development

What is the Worker Connection Program?

The Worker Connection program provides free navigation services to expand career opportunities at the local level. Trained Career Navigators work one on one with clients to identify their interests, values, and conditions of work. Then, they connect clients to resources, trainings, and in-demand career pathways in their area. The program also partners with community-based organizations and businesses to provide support and help employers with their workforce needs. Currently, the Worker Connection program is active in Milwaukee County (WDA 2) and the Bay area (WDA 5).
