- **Hwy. 65 & 70th Ave. Intersection Discussion with Landowners and DOT**

Mark Ploederer and Jim Koenig from the DOT presented a Visual of what the jug handles and round-a-bouts would look like from 70th Avenue. Willard asked on the cost of each, The DOT feels the cost would be about equal 1.6 million but they would share the cost in the jug handles.

Bill Derrick asked the DOT why there was not a proposal for the stop lights. He thought this is what this meeting was for. DOT informed him stop lights were never an option because of the high volume of traffic.

The DOT is willing to pay with cost sharing and want the bridge.

The DOT will meet with County Concrete to see if they would be willing to move the drive way currently being used to access the office and brickyard. The DOT will also put together a visual of what the bridge will look like with elevations and the profile of the road. This will be completed for the April 7th Plan Commission Meeting.

Bill Derrick will bring a set of his plans along with him for the April meeting.

Motion to adjourn at 8:40 PM by Weiss, seconded by Dull. Motion carried.
