Highway Department December 2021 Monthly Report:

Snow and Ice Control was the primary duty for the past month. During the month of December either our full crew or partial crew conducted snow and ice removal operations on 8 separate days. These include: days with storms, days with windblown drifts, days pretreating, and days cleaning up following storms

Between snow/ice storms we continued to clean, inspect and repair our equipment. All routine maintenance and nearly all equipment repairs are done in house.

We also mixed sand and salt to refill our sand building between storms

Gravel patched on 1 day

Removed dead trees from the right of way on several days

Finished vacuuming leaves, removed the vacuum and prepared that truck for snow and ice removal

Inter-departmental assistance the Highway Department provided:

Town

Installed a new underground propane tank and lines for the new generator

Park

Moved the burn pit and pallets for the Light Parade

Decorated the Santa float for Holiday Light Parade. We also drove the truck for the parade. We also assisted parking cars and monitoring the bon fire.

Following the parade we disassembled the float and returned everything to storage

Installed a new underground propane tank and lines for the new generator
