

Short Environmental Assessment Form

Part 1 - Project Information

Instructions for Completing

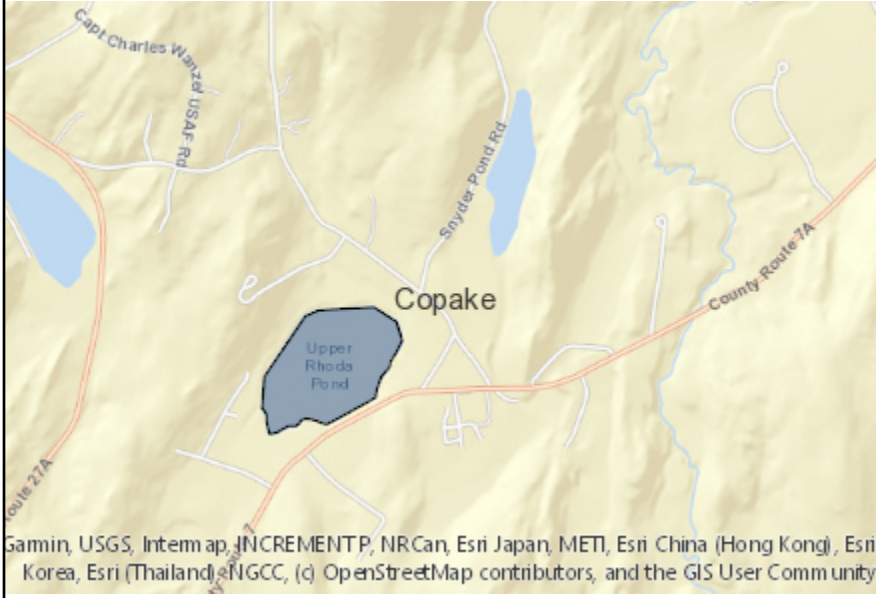

Part 1 – Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Introductory Local Law No. 4 of 2023

A Local Law to Authorize the Issuance of Waivers to Permit Operation of Gasoline/Fuel-Powered Motors and Motor Boats on Upper Rhoda Pond in Connection with Bona Fide Environmental Remediation and Invasive Species Control Program Activities

Narrative

(See Short Environmental Assessment Form Part 1, Question 1)

The intent of the proposed action is to amend the Town Code of the Town of Copake to authorize the limited use of gasoline- and/or other fuel-powered motors and motor boats on Upper Rhoda Pond to facilitate environmental remediation or invasive species control program activities. Currently, the Town Code prohibits, without exception, the operation of such motors and motor boats on Upper Rhoda Pond. However, the ability to undertake certain activities geared towards preserving the environmental quality of Upper Rhoda Pond in a cost-effective way may be impaired by such a restriction. The proposed local law would authorize the issuance of written waivers to permit use of gasoline- or other fuel-powered motors or motor boats where they are to be used in furtherance of conducting bona fide environmental remediation or invasive species control program activities. The proposed local law would require an applicant for such a waiver to demonstrate that their proposed use qualifies for the written waiver, would provide a defined term of such a waiver not to exceed 90 days (with potential extensions upon further application), would specify the vessel or vessels that are authorized for operation on Upper Rhoda Pond by the waiver, and would require the maintenance of a copy of the written waiver upon the vessel at issue.

Because the proposed local law introduces the potential use of gas/fuel powered motors in a body of water where they are currently prohibited, the environmental resources that may be affected by enactment of the proposed local law include surface water, noise, and air.
