

Columbia County Soil and Water Conservation District

Bare Root Tree and Shrub Sale

Each spring, the Columbia County Soil & Water Conservation District hosts an annual Bare Root Tree & Shrub sale, offering bare root plants to local residents. These plants are available at a low cost for conservation purposes, but at the same time add to the beauty of your property.

All plants are sold as bare root (*unpotted*) and range in size from 10" to 24". Blue Bird houses are also available for purchase.

The deadline for ordering is April first, with plants ready for pick-up at the end of April. For more information and to download the order form, visit [Columbia County Soil and Water Conservation District's Website](#).
