## **Highway Department February 2026 Monthly Report:**

Snow and Ice Control was the primary duty for the past month. During the month of February either our full crew or partial crew conducted snow and ice removal operations on 14 separate days. These include: days with storms, days with windblown drifts, days pretreating, and days cleaning up following storms

Mixed sand and salt on several days to replenish our sand building stockpile

Between snow/ice storms we continued to clean, inspect and repair our equipment. All routine maintenance and nearly all equipment repairs are done in house.

Cut dead trees and low hanging limbs on 2 days

Cleared many of our catch basins and culvert pipes of snow in anticipation of runoff

Built shelves in our parts storage area to better organize service filters

Inter-departmental assistance the Highway Department provided:

**Town**

Transported a load of refuse from the town hall and park building to the transfer station for disposal

We removed snow from the town hall roof in order to stop a leak

**Park**

Continued assisting in maintaining the ice rink

Inter-municipal Cooperation included:

**Columbia County Highway**

We worked together to remove snow from around the hamlet
