Town of Peshtigo Chair Cindy Boyle:

As City of Peshtigo Mayor, one of my concerns is the wellbeing of our neighbors in the Town of Peshtigo. The purpose of this letter is to make it clear that the City of Peshtigo would be willing to supply clean drinking water to residents in the Town of Peshtigo who are affected by the presence of PFAS in the wells.

Two years ago on a Saturday, I was contacted by the Wisconsin Department of Natural Resources and was given an overview of the misfortune Town of Peshtigo residents were facing with contaminated water concerns. The DNR representative asked if the City of Peshtigo would be willing to provide drinking water to the home owners in the Town of Peshtigo who have contaminated wells.

Two years later, I am giving the same response I gave to the DNR two years ago; **YES**, the City of Peshtigo is willing to supply the Town of Peshtigo with clean drinking water. From day one, I have stated they are our neighbors, friends, and relatives and we are here to help whenever and wherever we are needed.

Please extend this offer to your town board that the City of Peshtigo is committed to helping you solve your water concerns.

Sincerely,

Cathi Malke

Mayor, City of Peshtigo
