Hon. Mayor Cathi Malke and Peshtigo City Council Members  
City of Peshtigo  
331 French Street, Suite A  
Peshtigo, WI 54157

Re: Intermunicipal Water Service Agreement Discussions

Dear Mayor Malke:

On behalf of the Town of Peshtigo Board of Supervisors, I am writing to invite you to meet to discuss available water service options for the Town. As you know, an intergovernmental water service agreement with the City of Peshtigo has been identified as a technically feasible solution for providing potable water to Town residents. While we intend to explore all potential solutions, and recognize that intergovernmental water service agreements involve many technical details, we are firmly committed to solving the problem and believe an intergovernmental approach to be a viable option. We are optimistic that a mutually beneficial agreement can be achieved with the City of Peshtigo.

A summit of stakeholders will be taking place in September and we invite your participation in that process. If you feel it beneficial to meet prior to the summit please let me know as we are currently working to secure an engineering consultant to guide our efforts and once done, we will happily meet to answer as many questions as possible. We will look forward to hearing from you and working toward a cooperative community remedy to the environmental health issue neither of us participated in creating.

Thank you for your consideration.

Sincerely,

  
Cindy Boyle  
Town of Peshtigo Chair
