Please provide a site plan showing where new buildings will be placed on lot. Does not need to be to scale but indicate set backs and other distance measurements between structures on drawing.

If you are building a deck please go to this link and include that planning form with your application.

<https://dps.wi.gov/Documents/Programs/UDC/DeckColumnFootingsWorksheet.pdf>

Amount of soil disturbed for project: _____ None ☒ Under 1 acre _____ If over 1 acre you must provide a formal plan.

All permits are issued with the expectation that the applicant has agreed to provide erosion control. See SPS 321.125) (1) Sediment control practices shall be employed as necessary and maintained to prevent or reduce the potential deposition of soil or sediment to the waters of the state or adjacent properties. YOU MUST keep soil from being tracked onto streets by vehicles and control soil erosion from soil stockpiles. Sediment from dewatering at the project area must be kept from street storm water inlets, waters of the state or flow off-site. Control practices should be in place for each area of disturbed land prior to starting construction and shall be maintained until the disturbed areas are stabilized by the re-establishment of 70% of new vegetation. When more than one acre of land is disturbed you must get a formal approved plan

in accordance with the provisions of s. _____

COMMERCIAL BUILDING PERMIT TOWN OF PESHTIGO

ISSUED TO: Vertical Bridge BTS LLC
PROJECT LOCATION: W ~~1785~~ 1801 Old Peshtigo Road
DATE OF ISSUE: 1801 19 May 2022
PROJECT: WIRELESS TELECOMMUNICATIONS TOWER & SUPPORT EQUIPMENT

PERMIT CONDITIONS

The town expects that all State Commercial Building Codes – SPS 360-366 plus appendices, State fire codes and accessibility requirements defined by Federal Disabilities Act will be followed according to submitted plans. Furthermore the owner is responsible to obtain permits for any sanitary, shoreline protection and DNR requirements that might apply to project. The town will cooperate with these agencies to assist them with enforcement when allowed by jurisdiction and statute.

IMPORTANT NOTICE

The town building inspector will only do inspections related to Town of Peshtigo compliance with their local ordinances, erosion control and accessibility by emergency vehicles. Owners or agents must request state inspection when required by the state commercial code. Copies of any orders issued by state inspectors shall be sent to the town Building Inspector.

All permits are issued with the expectation that the applicant has agreed to provide erosion control. See SPS 321.125) (1) Sediment control practices shall be employed as necessary and maintained to prevent or reduce the potential deposition of soil or sediment to the waters of the state or adjacent properties. YOU MUST keep soil from being tracked onto streets by vehicles and control soil erosion from soil stockpiles. Sediment from dewatering at the project area must be kept from street storm water inlets, waters of the state or flow off site. Control practices should be in place for each area of disturbed land prior to starting construction and shall be maintained until the disturbed areas are stabilized by the re-establishment of 70% of new vegetation. When more than one acre of land is disturbed you must get a formal approved plan

COMMERCIAL BUILDING PERMIT TOWN OF PESHTIGO

ISSUED TO: C & E Frank LLC
PROJECT LOCATION: N2550 Timberland Way
DATE OF ISSUE: 1 June 2022
PROJECT: NEW STORAGE UNITS – BUILDING 2

PERMIT CONDITIONS

The town expects that all State Commercial Building Codes – SPS 360-366 plus appendices, State fire codes and accessibility requirements defined by Federal Disabilities Act will be followed according to submitted plans. Furthermore the owner is responsible to obtain permits for any sanitary, shoreline protection and DNR requirements that might apply to project. The town will cooperate with these agencies to assist them with enforcement when allowed by jurisdiction and statute.

IMPORTANT NOTICE

The town building inspector will only do inspections related to Town of Peshtigo compliance with their local ordinances, erosion control and accessibility by emergency vehicles. Owners or agents must request state inspection when required by the state commercial code. Copies of any orders issued by state inspectors shall be sent to the town Building Inspector.

Deck building information available at this link <https://dps.wi.gov/Documents/Programs/UDC/DeckColumnFootingSizeWorksheet.pdf>

Prevent erosion on your construction site:

Sediment control practices shall be employed as necessary and maintained to prevent or reduce the potential deposition of soil or sediment into the waters of the state or adjacent properties. YOU MUST keep soil from being tracked onto streets by vehicles and control soil erosion from soil stockpiles. Sediment from dewatering at the project area must be kept from a street storm water inlet. Erosion control practices must be maintained until the disturbed areas are stabilized by the re-establishment of 70% of new vegetation. If more than one acre of land is disturbed the owner must get a formal approved plan from the Wis DNR. Go to following for more

information: NR151.32(2) NOTE: One acre is 43,560 square feet. /

Tom Smith Inspections LLC
2740 Otto Court
Green Bay WI 54313

From: Tom Smith tom@tsinspections.com

Subject: Address assignment

Date: November 4, 2022 at 5:24 PM

To: milatzo330@gmail.com, Town of Peshtigo Clerk topclerk@townofpeshtigo.org, Town of Peshtigo Info topinfo@townofpeshtigo.org

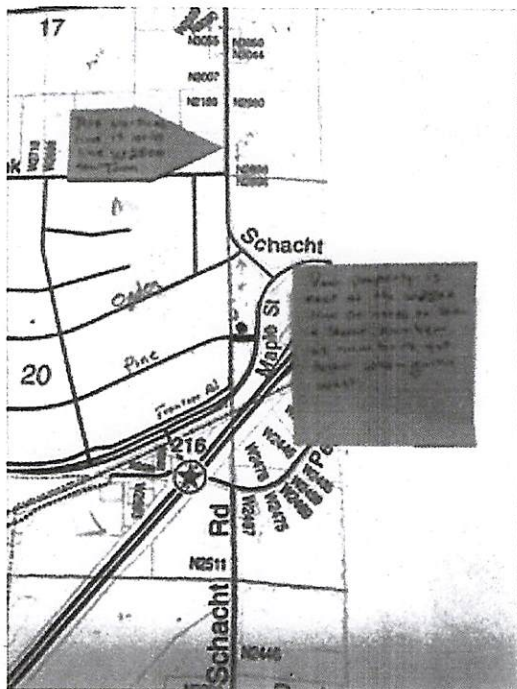

First I want to thank Clarence and Kayla for taking time to help me on this address. It is a bit unusual as the amount of Pine Street that is officially in the Town is very short section of that street and the City system for addresses is different from the Town. Getting the direction from Clarence that it must comply with the grid system is very helpful. Thus I believe it calculates as follows:

1. The section of Pine Street in the town is an east / west road.
2. The address for the Town needs a 4 digit address.
3. The closest grid line on this east / west road to property driveway is W2500
4. This driveway is a little to the east from the W2500 grid line thus it should be an even number lower than W2500
5. Based on the distance from W2500 grid line it should be six even digits less than W2500
6. Therefore the number I believe should be assigned is **W2494 Pine for this new driveway.**

I also want thank Mathew for tolerating my confusion and for his input to me.

If any of this does not agree with your thinking please contact me. But if this finally appears correct please order the sign and have it installed as soon as possible.

Thanks

COMMERCIAL BUILDING PERMIT TOWN OF PESHTIGO

ISSUED TO: C E FRANK LLC
PROJECT LOCATION: N2550 TIMBERLAND WAY
DATE OF ISSUE: 11-1-22
PROJECT: 50 x 220 Detached Accessory Building

PERMIT CONDITIONS

The town expects that all State Commercial Building Codes – SPS 360-366 plus appendices, State fire codes and accessibility requirements defined by Federal Disabilities Act will be followed according to submitted plans. Furthermore the owner is responsible to obtain permits for any sanitary, shoreline protection and DNR requirements that might apply to project. The town will cooperate with these agencies to assist them with enforcement when allowed by jurisdiction and statute.

IMPORTANT NOTICE

The town building inspector will only do inspections related to Town of Peshtigo compliance with their local ordinances, erosion control and accessibility by emergency vehicles. Owners or agents must request state inspection when required by the state commercial code. Copies of any orders issued by state inspectors shall be sent to the town Building Inspector.

COMMERCIAL BUILDING PERMIT TOWN OF PESHTIGO

ISSUED TO: BANKAST SAWING
PROJECT LOCATION: N3435 REHMS RD
DATE OF ISSUE: 10-20-22
PROJECT: COMMERCIAL GENERAL STORAGE SHED

PERMIT CONDITIONS

The town expects that all State Commercial Building Codes – SPS 360-366 plus appendicies, State fire codes and accessibility requirements defined by Federal Disabilities Act will be followed according to submitted plans. Furthermore the owner is responsible to obtain permits for any sanitary, shoreline protection and DNR requirements that might apply to project. The town will cooperate with these agencies to assist them with enforcement when allowed by jurisdiction and statute.

IMPORTANT NOTICE

The town building inspector will only do inspections related to Town of Peshtigo compliance with their local ordinances, erosion control and accessibility by emergency vehicles. Owners or agents must request state inspection when required by the state commercial code. Copies of any orders issued by state inspectors shall be sent to the town Building Inspector.

From: Tom Smith tom@tsinspections.com
Subject: Re: Building Permit Application
Date: October 17, 2022 at 9:17 AM
To: Kayla Steeber kayla@steebersolutions.com

It has been very busy right now and I did not see this is a commercial building. As such you have basically provided what I need on your email. All you need to do is send the Permit Fee and a building plan if that is available. Can be an electronic copy if you have that. Can be sent as an email to tom@tsinspections.com. When I get the fee payment I will process. Also need a building plan or if required a copy of any state approved plans.

The fee is \$400 for commercial projects. Check to Tom Smith Inspections
Be sure to identify what the check is for and building site address as I have others sending checks and sometimes difficult to match the check to the project.

Send to:
Tom Smith Inspections
2740 Otto Court
Green Bay WI 54313

It appears the size of the building will probably be less than is required for getting state approved plans but it is always good to call the state inspector.. Ryan Geiger 608-235-7405 or email Ryan.geiger@wisconsin.gov to check if you need them. Remember they determine the need for permit based on for new project. If attached to an existing building then that amount of cubic feet is included in the application. They also have different requirements for the use of the building ..when deciding on need for state approved plans
If you do need a state approved plan then send me a copy of the approval when you would get that from the state.

Amount of soil disturbed for project: ☐ None ☒ Under 1 acre ☐ If over 1 acre you must provide a formal plan.

All permits are issued with the expectation that the applicant has agreed to provide erosion control. See SPS 321.125) (1) Sediment control practices shall be employed as necessary and maintained to prevent or reduce the potential deposition of soil or sediment to the waters of the state or adjacent properties. YOU MUST keep soil from being tracked onto streets by vehicles and control soil erosion from soil stockpiles. Sediment from dewatering at the project area must be kept from street storm water inlets, waters of the state or flow off site. Control practices should be in place for each area of disturbed land prior to starting construction and shall be maintained until the disturbed areas are stabilized by the re-establishment of 70% of new vegetation. When more than one acre of land is disturbed you must get a formal approved plan

Application for culverts and / or requests for emergency address number

With modern GPS navigation it is very important to have accurate measurements for the assignment of emergency address numbers. For this reason, I will need to have an exact physical marker for the location of where a culvert will be located if a culvert does not already exist. You must mark that spot-on site by a lath / flagged post placed at the right of way for the property adjacent to the road. I also ask that you provide a sketch to help me with this task.

Property GPS Coordinates: LAT : 45.01930 , LON : -87.75928 X : 770542.15 , Y : 119461.84

Note: Proposed culvert location is flagged with yellow marked stakes
