Subject: 223 Cheshire Rd, proposed Prospect Gun Club House

Hi Mary,

Based on the sized of the existing septic system and the limited usage from the Prospect Gun Club, the septic system at 223 Cheshire Rd, Prospect will be adequate to handle the club house that the Prospect Gun Club is requesting. I will require them to install a water meter on the existing well to monitor the water usage so they can keep track to not go over their 450 gallons per day limit that the existing septic system is sized for. Any future alterations, additions, or changes in use the Prospect Gun Club will be required to fill out our B100a application and provide all necessary documentation for our office to review. If you have any questions, please contact at any time.

Thank you,
