TO: Board of Commissioners

FROM: Adriana Nieves, CMC, CFM, Town Clerk/CRS Coordinator

DATE: May 30, 2023

RE: Annual updates to Pinellas County's Community Rating System Program for Public Information and Pinellas County's Local Mitigation Strategy.

Recommended Action:

Receive and file the annual reports and updates to the County's Floodplain Management Program for Public Information (PPI) and the Local Mitigation Strategy (LMS).

Strategic Plan:

Ensure Public Health, Safety, and Welfare

2.1 Provide planning, coordination, prevention, and protective services to ensure a safe and secure community.

Summary:

The PPI is a step-by-step coordinated approach to flood hazard outreach. The County's purpose in developing this plan is to improve communication with citizens, and to provide information about flood hazards, flood safety, flood insurance, and ways to protect property and natural floodplain functions to those who can benefit from it.

The LMS is a countywide hazard mitigation plan that includes Pinellas County and participating municipalities, as well as several agencies and non-governmental stakeholders. An LMS is a plan developed to reduce and/or eliminate the risks associated with natural and man-made hazards. These plans must be in accordance with the Federal Disaster Mitigation Act of 2000. Without an approved LMS the Town would be unable to apply for various Federal hazard mitigation grants. The current LMS was adopted by the Board in May 2020. The LMS also serves as the Town's Floodplain Management Plan. Participation in the CRS Program requires the adoption of a Floodplain Management Plan.

Submittal of the PPI and LMS annual updates to the Commission are required as part of the Town's participation in the National Flood Insurance Program's (NFIP) CRS Program. The Town's participation in the CRS Program results in over \$200,000 of savings to residents of Redington Beach who purchase flood insurance through the **NFIP**.
