9.36 PROCEDURE FOR ADMINISTRATIVE REVIEW PERMITS
A and B remain unchanged

~~C. General Standards for Approval~~

~~No application for an administrative review permit for an administrative review use shall be approved or conditionally approved unless the zoning administrator determines that the standards contained in section 9.42 (E) are fulfilled. When applying such standards to an administrative review permit application, the phrase "conditional use" shall be replaced with the phrase "administrative review use."~~

D C. Optional CUP Procedure

As an alternative to the administrative review permit procedures for administrative review uses contained in this section, an applicant may request that the administrative review procedure be waived and that the proposed use be handled under the conditional use procedures. Such request must be made before or at the time the applicant files an administrative review permit application. If the applicant chooses to have

an administrative review use handled under the conditional use procedures, the person shall complete a CUP application, pay the CUP fee and otherwise comply with all the provisions applicable to a CUP. The CUP application shall be reviewed and acted upon pursuant to the CUP procedures and provisions contained in sections 9.41 and 9.42.

9.42 B and C remain unchanged

D. Basis of Approval or Denial

1. The Planning and Development Committee shall review each conditional use permit application for compliance with all requirements applicable to that specific use and to all other relevant provisions of this ordinance. The Committee's decision to approve or deny the conditional use permit must be supported by substantial evidence. "Substantial evidence means facts and information, other than merely personal preferences or speculation, directly pertaining to the requirements and conditions an applicant must meet to obtain a conditional use permit and that reasonable persons would accept in support of a conclusion." Wis. Stats. §59.69 (5e) (a) (2).
2. To aid in the review of a decision-making regarding the proposed conditional use project, the Planning and Development Committee shall evaluate the following specific criteria as applicable, but shall not be limited thereto:
 - a. The establishment, maintenance or operation of the conditional use will not be detrimental to or endanger the public health, safety, morals, comfort or general welfare.
 - b. The uses, values and enjoyment of neighboring property shall not be substantially impaired or diminished by the establishment, maintenance or operation of the conditional use.
 - c. The proposed conditional use is compatible with the use of adjacent land and any adopted local plans for the area.
 - d. The establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district.
 - e. Adequate utilities, access roads, drainage and other necessary site improvements have been or will be provided for the conditional use.
 - f. Adequate measures have been or will be taken to provide ingress and egress so as to minimize traffic congestion in the public streets.
 - g. The conditional use shall conform to all applicable regulations of the district in which it is located.
 - h. The conditional use does not violate shoreland or floodplain regulations governing the site.
 - i. Adequate measures have been or will be taken to prevent and control water pollution, including sedimentation, erosion and runoff.

The foregoing criteria are deemed reasonable and, to the extent practicable, measurable.

3. An applicant's failure to demonstrate, by substantial evidence, that the application and all applicable requirements in this ordinance and conditions established by the county relating to the conditional use are or will be satisfied shall be grounds to deny the conditional use permit. At all times the burden of proof to demonstrate satisfaction of these criteria remains with the applicant.
