Watermelon is a refreshing summertime treat and a disease-fighting superstar.

If you love watermelon, you're onto a good thing. This refreshing Summer time favorite is a nutritional super star too. Here are four reasons to add it to your shopping list.

Watermelon helps keep your arteries clear. Early research suggest that watermelon juice reduces body fat, lowers LDL cholesterol, and the biggest effect, it cleans heart threatening plaque from your arteries.

It drops your blood pressure and boost circulation. Watermelon is one of the few food sources of cytrulline, a protein that may lower systolic blood pressure by as much as nine points. That's enough to prevent full brown hypertension. Watermelon is loaded with lycopene, this potent plant polyphenol start defend off heart disease and some cancers. Cup for cup, watermelon has 40% more lycopene than tomatoes.

It's naturally low in calories. You get all those great benefits and flavor for just 48 calories per cup. That's a lot of punch for a sweet fruit according to Dr. Kevin Soden. For more ways to nourish your health, visit the share care website.

Red for the blood shed in the name of Freedom, for which we fought, united  
 Blue for the oceans of time we have crossed, remaining the land of the free  
 White for the peace we wish to share, all men created equal  
 Stars to remember those who fought throughout the night, bravely for our land  
 Stripes to remind us of the lashings taken by the Prisoners of War  
 With a seal, in God we trust We each are one of many, in which we stand united in Brotherhood A symbol of  
 Pride A salute to those who died in the fight  
 A blanket to cover us in times of need Waving high to show we are still here, undefeated With honor you are  
 presented to the world
