

Valentine SNIPPETS of SALEM

716 – 1959 Town of Bristol Taxable Parcels

Contents:

716 - 1959 Town of Bristol Taxable Parcels showing Names, Legal briefs, land and improvement values, addresses in typed and written format 11"x14" pages

Other books in the series

714 - 1939 Town of Bristol Taxable Parcels showing Names, Legal briefs, land and improvement values, addresses in typed and written format 17" x 17" pages

715 - 1941 Town of Bristol Taxable Parcels showing Names, Legal briefs, land and improvement values, addresses in typed and written format 17" x 17" pages

717 - 1964 Town of Bristol Taxable Parcels showing Names, Legal briefs, land and improvement values, addresses in typed and written format 11"x14" pages

Village of Bristol kept some of the books which existed for every year. The method of keeping track of this information has changed since the dates noted.

Images of what these books looked like are in the digital file.

All four of these books has page sets to be complete, meaning that the researcher needs the left and the right side to have a complete presentation.

0-300apx pages

Note:

The original documents were trimmed for processing.

The original documents have been copied to create this PDF.

The original documents may be destroyed.

There is no photocopied booklet to backup this PDF series.

This material is from the Valentine collection and resides with Western Kenosha County Historical Society.

The materials herein were contributed by those of the area who wished that the history they have experienced be saved for the future generations. These may represent private documents as well as previously published articles and obituaries and images from their saved collections..

Researchers should also refer to the Valentine Digital archives at the SALEM COMMUNITY LIBRARY (and perhaps other websites) for more images in this collection or digital images of items photocopied in this booklet or related to the topic.

(c) The third line shows how to record land entered under the forest crop law (Chapter 77 of the Statutes). Such lands must be assessed in the same manner as other property, but are not subject to general property taxes. **DO NOT**, therefore, put the acres or value of forest crop lands in columns 23, 24, 25 or 26.

(d) The fourth line shows how to enter an assessment of a dwelling and the lot or lots it is on. In the illustration in line (4) the value of the lot is \$1,000 and is put under Class A **RESIDENTIAL** in column 1. The value of the buildings is \$10,000 and is put in column 2. These figures are repeated in columns 24 and 25 and the total of \$11,000 is put in column 26.

(e) The fifth line shows how to enter an assessment of mercantile property, that is, a store or a garage, and the lot or lots it is on. In the illustration in line (5) the value of the land is \$500 and is put under Class B. **MERCANTILE** in column 3. The value of the buildings is \$5,000 and is put in column 4. These figures are carried into columns 24, 25 and 26 as indicated in the illustration.

The assessment of manufacturing property is put under Class C. MANUFACTURING in columns 5 and 6 in the same way that a residential assessment is put in columns 1 and 2 and a mercantile assessment is put in columns 3 and 4.

The following outline will give you a general idea of the kinds of real estate which should be put in the different classes on the assessment roll:

A. RESIDENTIAL. Under this class place lots in unincorporated villages or small parcels of land, upon which are located buildings whose chief use

- purpose, whether used all the year or during the summer only such as lake cottages and resorts. Consult the Assessors' Manual for further information as to this class of property.

B. MERCANTILE. Under this class place lots or small parcels of land in the business section of unincorporated villages and property such as garages, retail stores, and blacksmith shops. Consult the Assessors' Manual for further information as to this class of property.

C. MANUFACTURING. Under this class put all property used in building or fabricating goods and products. Cheese factories, creameries and condensaries are manufacturing plants and should be put in this class. Consult the Assessors' Manual for further information as to this class of property.

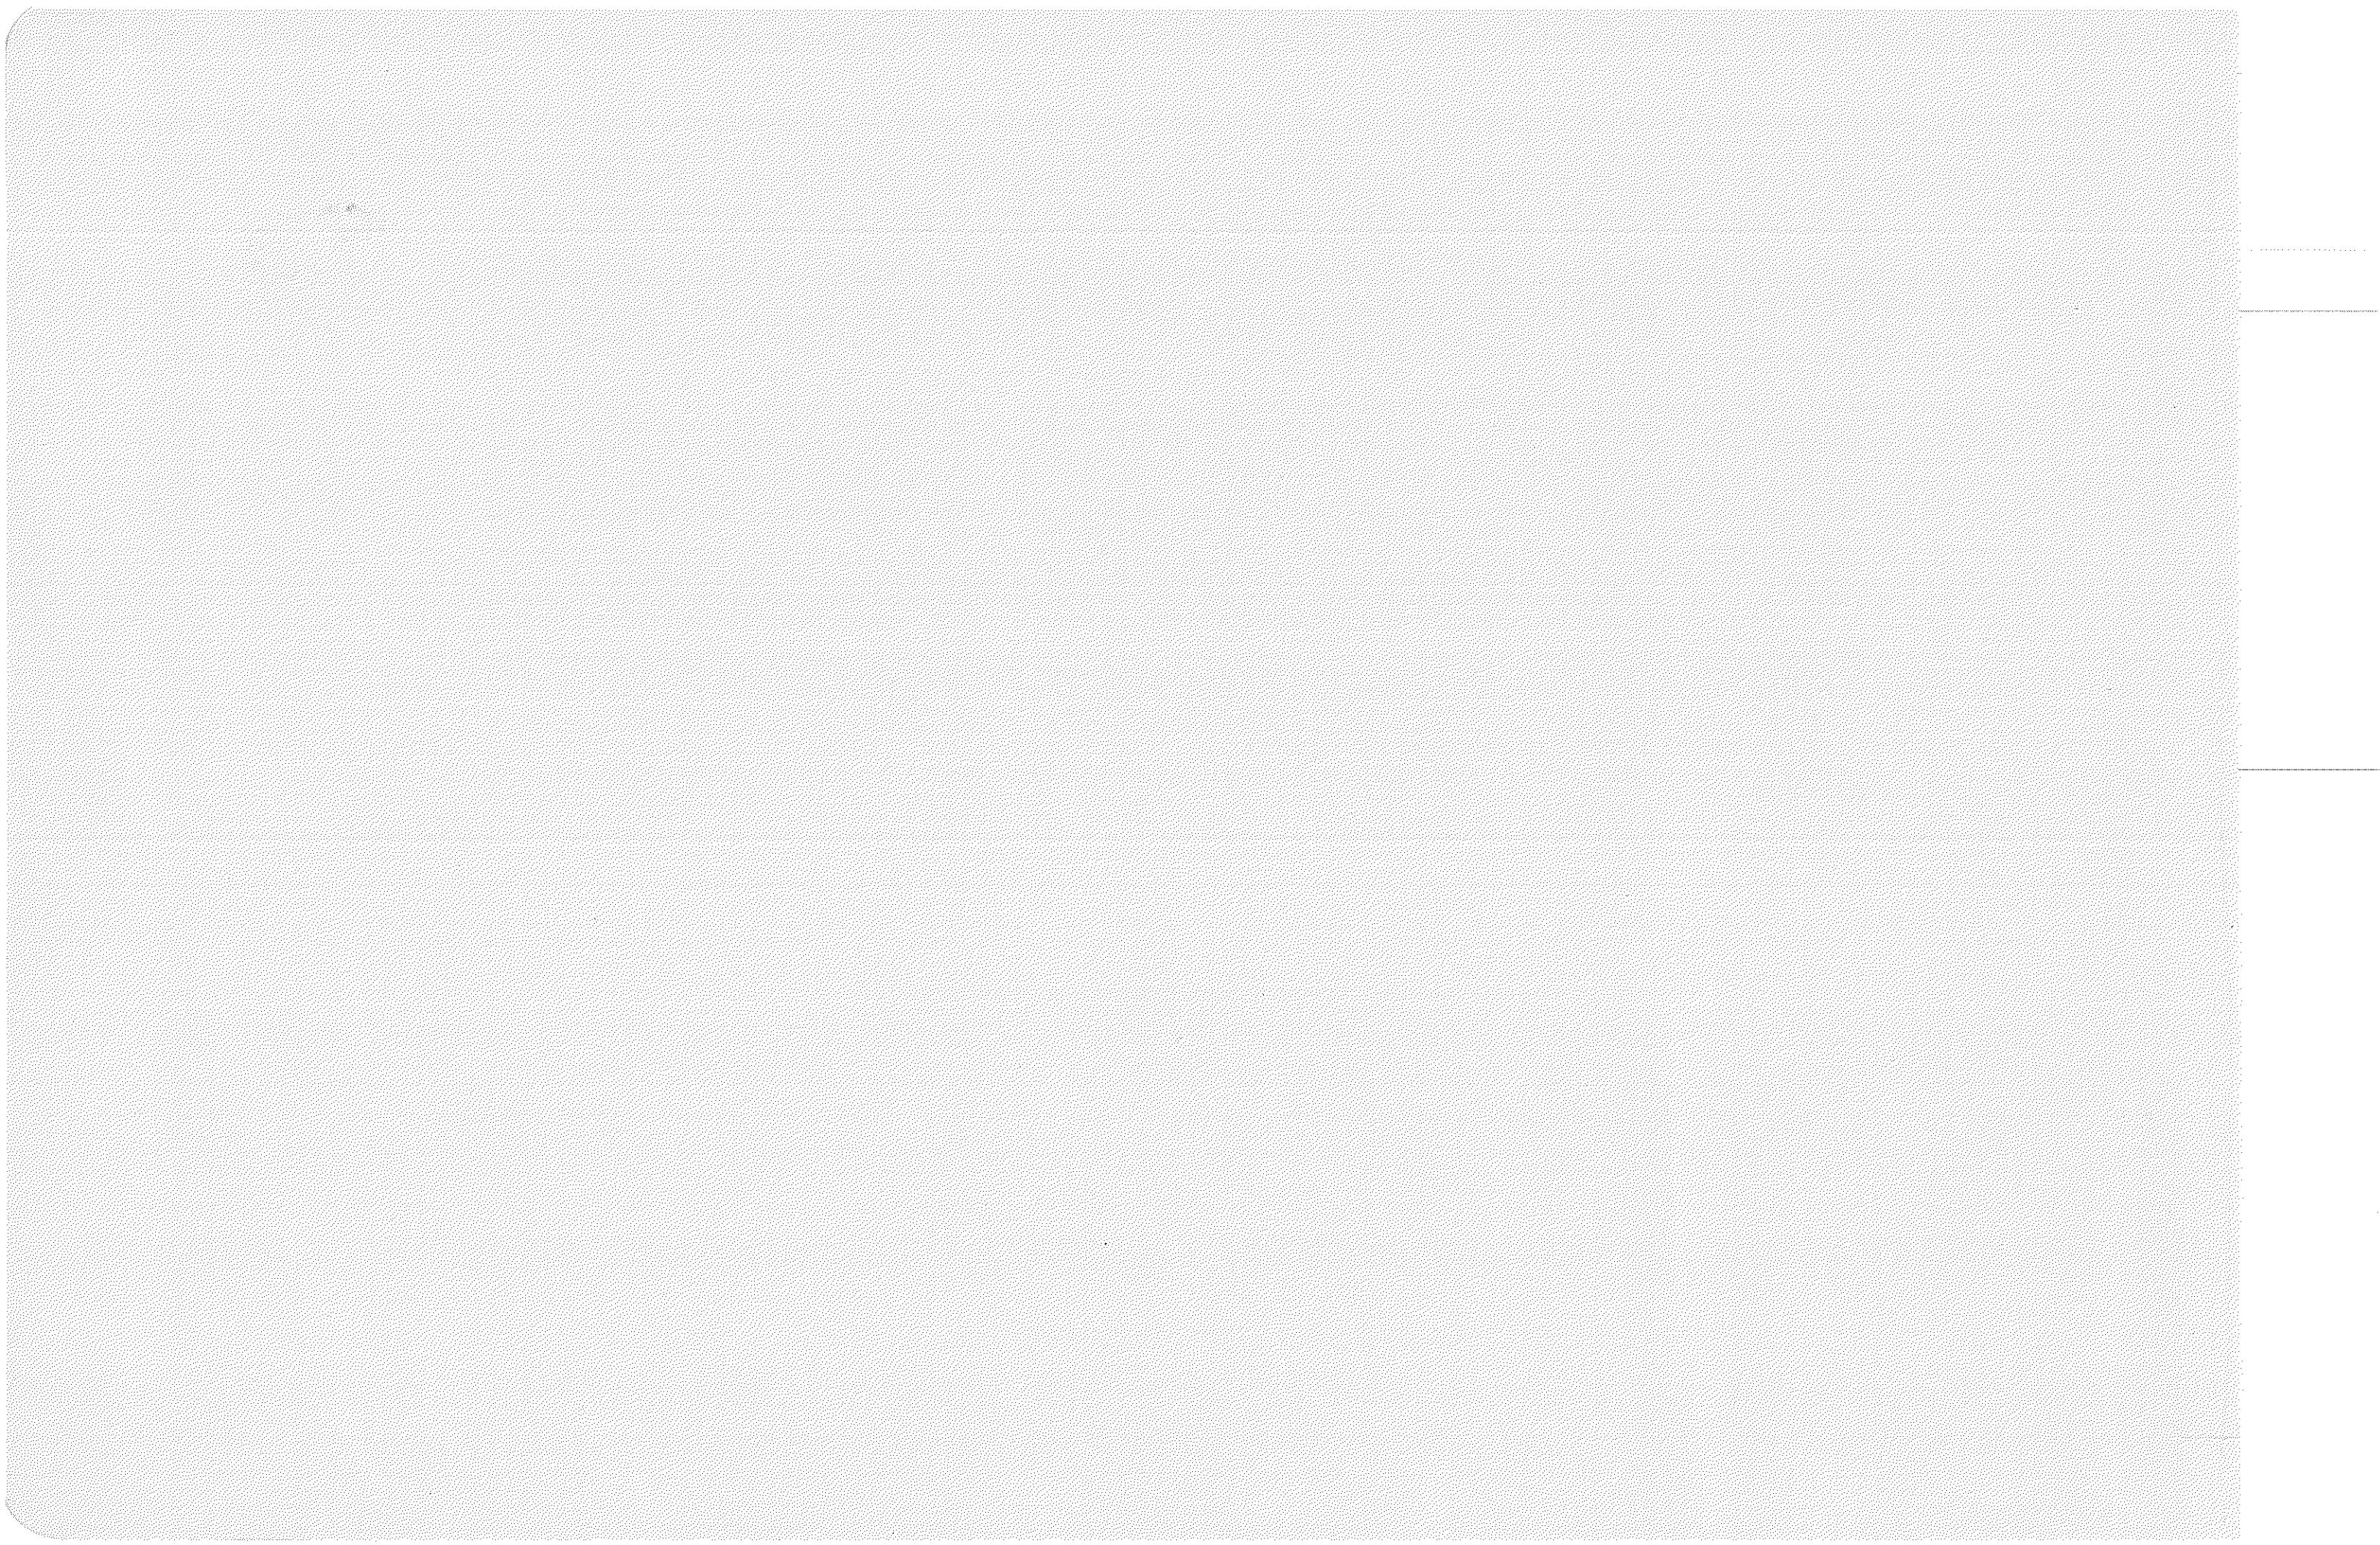

D. AGRICULTURAL. Lands which are now under cultivation, or have been cultivated, hay lands, both tame and wild, and all lands used as wild pasture. Compare with the headings of grades under Class D. **AGRICULTURAL** in the field book. Consult the Assessors' Manual for further information as to this class of property.

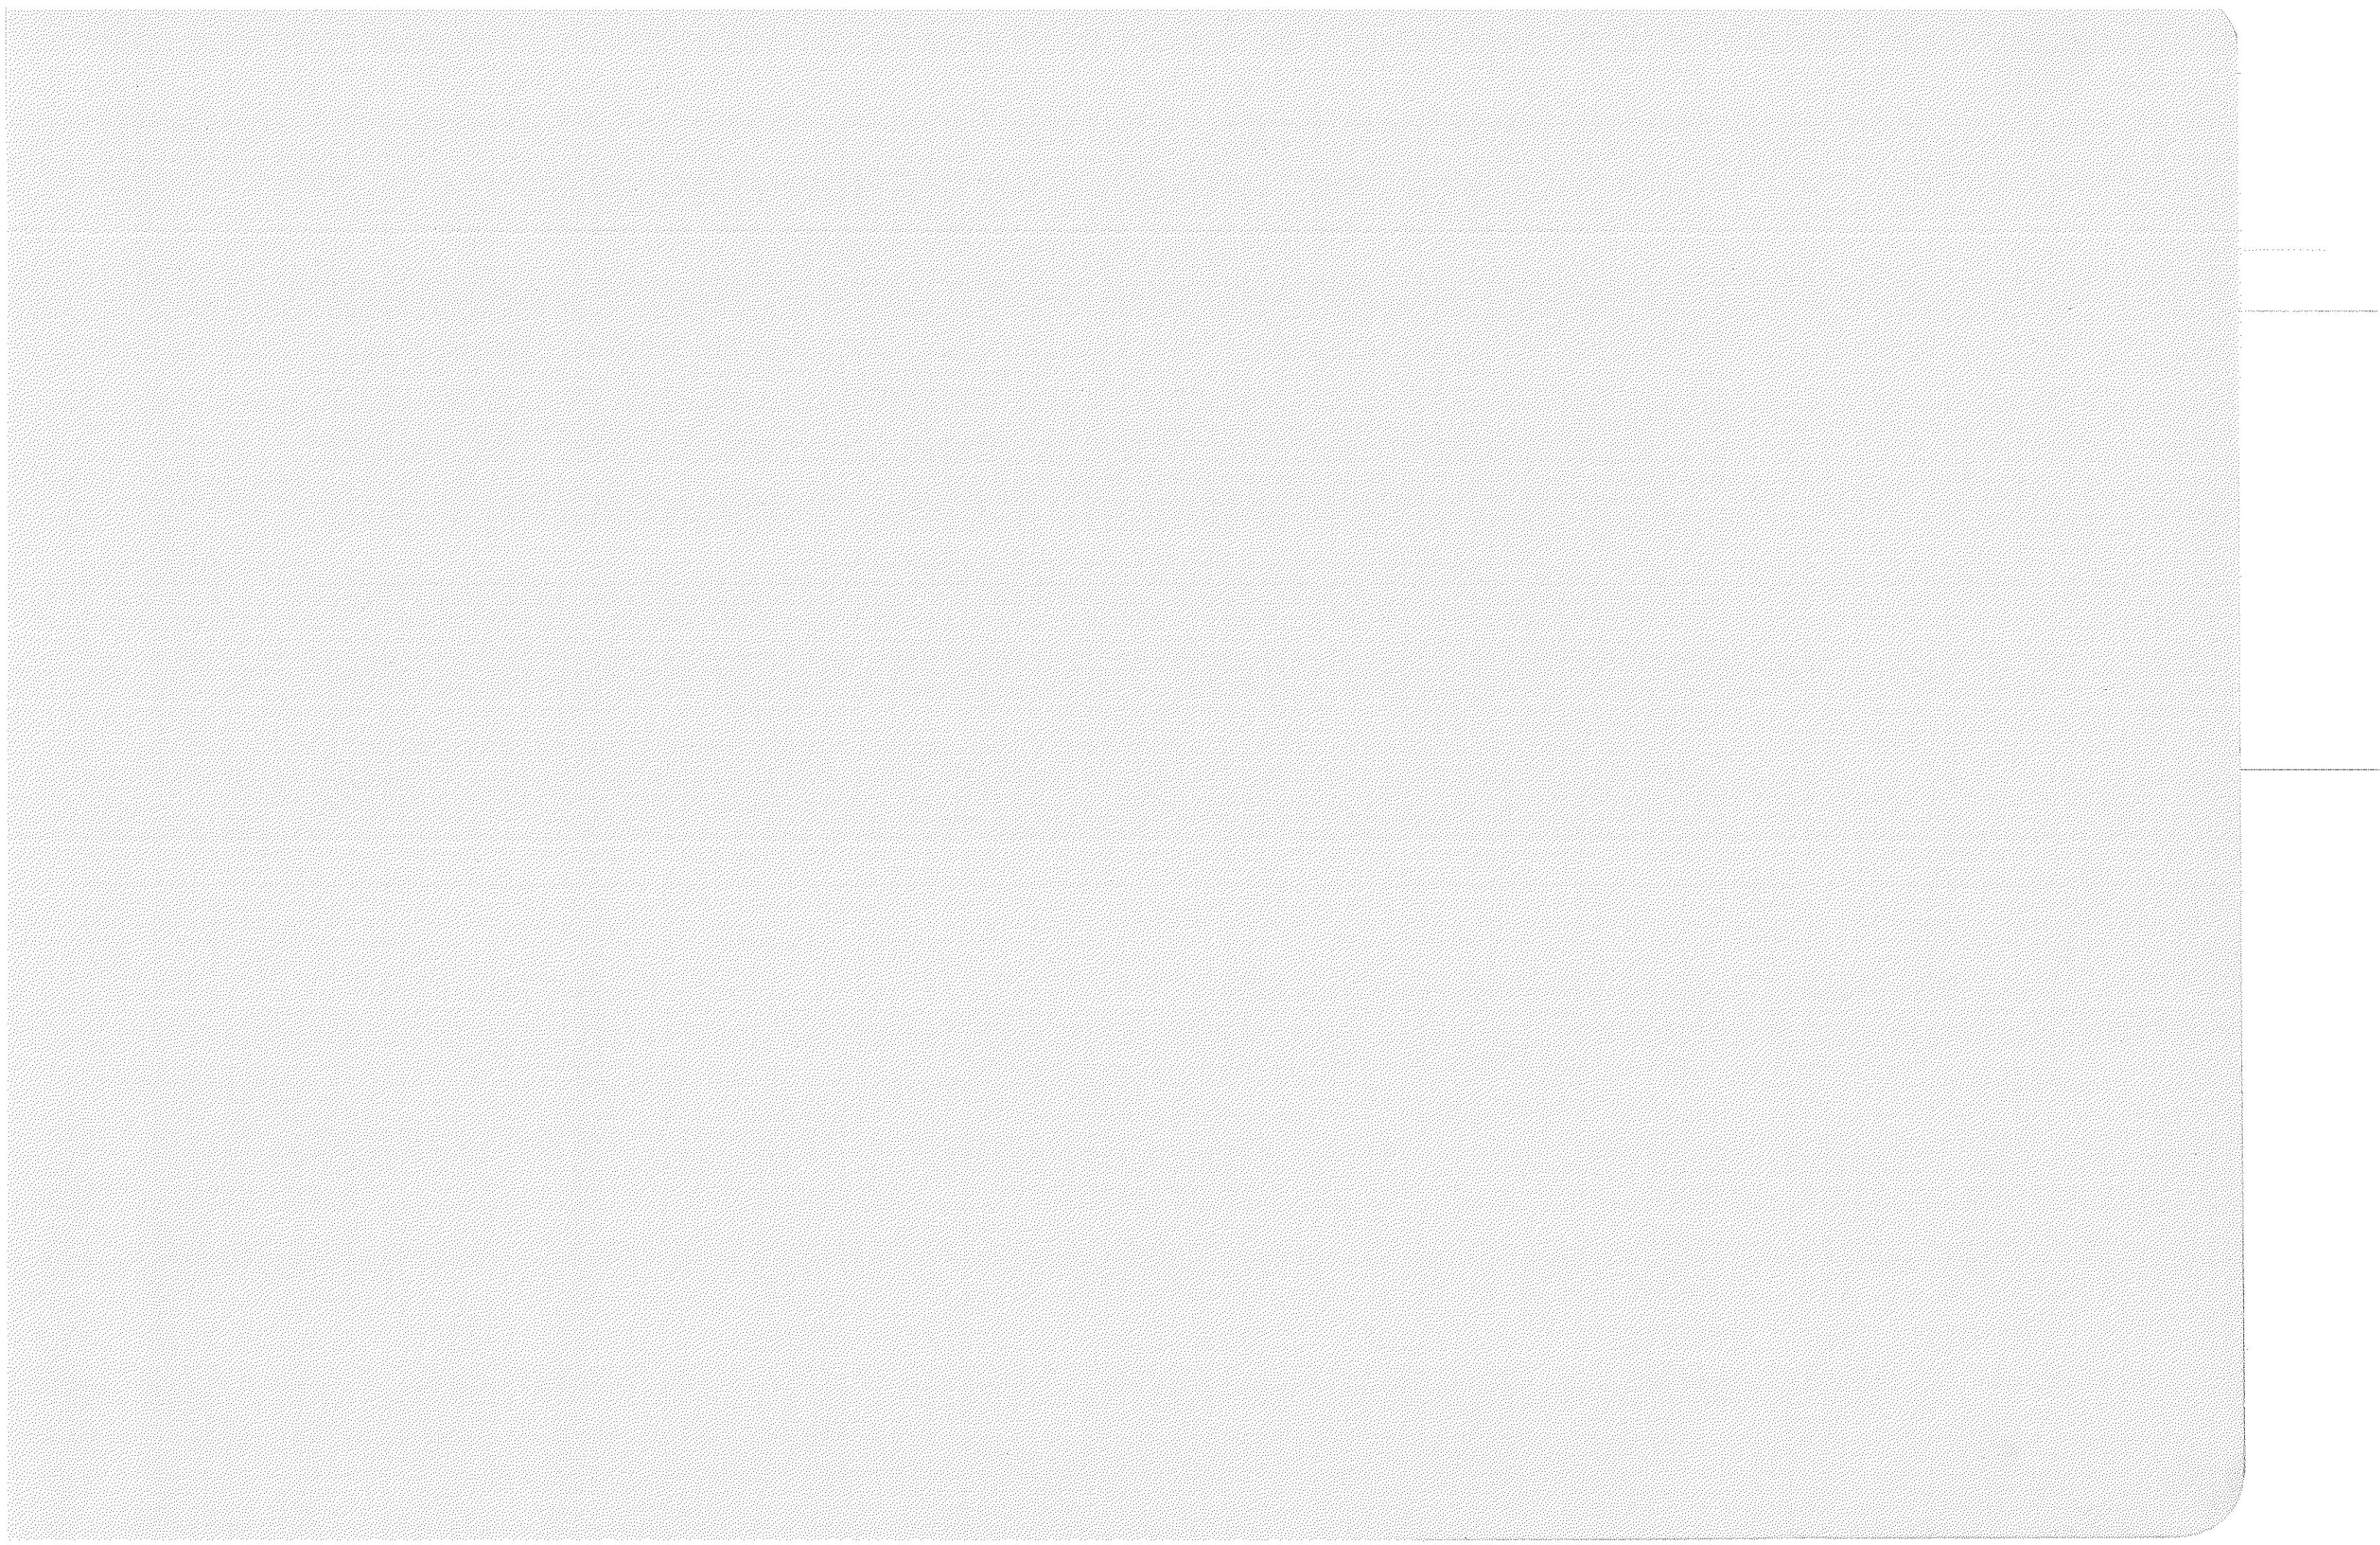

E. SWAMP, CUT-OVER AND WASTE. Cut-over lands are found mostly in Northern Wisconsin and consist of real estate which has not been cleared and from which practically all of the timber has been removed and are NOT used for wild **PASTURE**. Waste lands consist of marsh, non-productive sand, very rocky or extremely rough lands, etc. Consult the Assessors' Manual for further information as to this class of property.

F. TIMBER. This class is self-explanatory. Most timber land is found in Northern Wisconsin, but some is found in all sections of the State. Consult the Assessors' Manual for further information as to this class of property.

NOTE: A loose leaf copy of these instructions is furnished with each roll for the convenience of the assessor so he may carry it from page to page when assessments are made.

State of Wisconsin, for the Year 19

IMPORTANT INSTRUCTIONS FOR TOWN ASSESSORS

DO NOT ENTER ANY ASSESSMENTS OF LAND OR IMPROVEMENTS IN THE ROLL UNTIL YOU CAREFULLY READ AND UNDERSTAND THE FOLLOWING INSTRUCTIONS:

The assessment roll is prepared to separate real estate into classes as required by law. A sample of the roll will be found at the bottom of the page. You will note there are six classes: A. RESIDENTIAL, B. MERCANTILE, C. MANUFACTURING, D. AGRICULTURAL, E. SWAMP, CUT-OVER AND WASTE, and F. TIMBER.

You will first write the owner's name and description on the roll in the proper columns. If the description is **ALL ONE CLASS OF PROPERTY**, which is usually the case in classes A, B and C, you will put your assessment of the **WHOLE** description in the **ONE** class. You will put the value of the land in the column headed **LAND** and the value of the improvements in the column headed **IMPROVEMENTS**. You will then carry the totals to the **TOTAL** column at the right.

If the description is made up of TWO or MORE classes of property, which is often the case in classes D, E and F, you will value each class of land separately, putting down FIRST the NUMBER of ACRES in one class, SECOND, the VALUE of LAND in that class and, THIRD, the VALUE of IMPROVEMENTS, if any. You will repeat this process for the other classes of land in the description.

In all cases, after the description has been correctly classified, add all **ACRES** in the line except forest crop and exempt land and put in column 23. Add all **VALUES** of Land in the line except forest crop lands and put in column 24. Put the Total Value of all Improvements in column 25. Put Total Value of Land and Improvements in column 26.

To show you how the job is done the following illustrations are put on the sample of the roll below.

(a) John Smith's forty, NE NE, has 20 acres agricultural or farm land worth \$80.00 per acre, 15 acres cut-over land, wholly unimproved and not used at all for farming worth \$20.00 per acre, and 5 acres of Woodland Tax land, omitted from the tax base but taxed at 20 cents per acre. The buildings are worth \$3,000. You will put the 20 acres of agricultural or farm land under Class D. AGRICULTURAL in column 7, the total value of the 20 acres, \$1,600, in column 8, and the value of the improvements in column 9. You will put the 15 acres of cut-over land in column 10 of Class E. SWAMP, CUT-OVER AND WASTE, and the total value of the 15 acres, \$300, in column 11. You will put the 5 acres of Woodland Tax land in column 17 and compute a tax at 20 cents per acre, \$1.00, in W. T. L. column at right. Add the ACRES in the line under columns 7 and 10, (20 plus 15), and put the total, 35 acres, in column 23. Add all VALUES of land in the line, \$1,600 plus \$300, and put the total, \$1,900, in column 24. Put Total Value of Improvements, \$3,000, in column 25. Put Total Value of both Land and Improvements in column 26.

(b) Ole Peterson owns 76 acres. 25 acres are swamp worth \$2 an acre; 21 acres are cut-over worth \$10 per acre; and 30 acres are timber worth \$50 an acre. You will put the 25 acres swamp and the 21 acres cut-over, total 46 acres, under Class E. SWAMP, CUT-OVER AND WASTE, in column 10. The total value of both kinds, \$260, put in column 11. You will put the 30 acres of timber in column 12 and the value of the 30 acres, \$1500, in column 13 under Class F. TIMBER. Add all ACRES in the line, 46 plus 30, and put the total, 76, in column 23. Add all VALUES of Land in the line, \$260 plus \$1,500, total \$1,760, and put in column 24. There are no Improvements to carry to column 25. Put the Total of \$1,760 in column 26.

ASSESSOR'S AFFIDAVIT

(Sec. 70.49, Wisconsin Statutes)

STATE OF WISCONSIN, } ss.
Kenosha COUNTY. }
the..... Town of Brustal I, Alvin Reidenbach, Assessor..... for
Assessment Roll contains, according to ③ My best information and belief, a complete list of all real and personal property liable for assessment
for the present year in said ④ Farm; that the valuations of real and personal property as set down by ② me (or as corrected
by the board of assessors in cities of the first class) in said roll have been made impartially according to ③ My best skill and judgment and are
the just and equitable valuations of such property; and that ① I have performed to the best of ③ my ability all the duties of ③ said
office with respect to said assessment roll in accordance with the statutes relating thereto.

Alvin Reidenbach

Brustal

Read to the affiant and subscribed and sworn to before me this 13 day of July, 1959

Margaret Malecki
Town Clerk

- ① I or We
- ② Me or Us
- ③ My or Our
- ④ Town, City or Village

IMPORTANT INSTRUCTIONS FOR CLERK AND BOARD OF REVIEW

70.50 Delivery of roll. Except in cities of the first class the assessor shall, on or before the first Monday in July annually, deliver the assessment roll so completed and all the sworn statements and valuations of personal property to the clerk of the town, city or village, who shall file and preserve the same in his office.

70.52 Clerks to examine and correct rolls. Upon receiving such assessment roll the said clerk shall carefully examine it. He shall correct all double assessments, imperfect descriptions and other errors apparent upon the face of the roll, and strike off all parcels of real property not liable to taxation. He shall add to the roll any parcel of real or personal property omitted by the assessors and immediately notify them thereof; and such assessors shall forthwith view and value the same and certify such valuation to said clerk, who shall enter it upon the roll, and such valuation shall be final. To enable such clerk to properly correct defective descriptions he may call to his aid, when necessary, the county surveyor, whose fees for the services rendered shall be paid by the town, city or village.

The clerk and board of review should not begin their hearing on the second Monday in July until they have carefully read these important instructions concerning changes in the assessments which are made by the board of review. These instructions do not concern the assessor. His instructions are found on the loose leaf accompanying the roll.

Part of Section 70.48 reads as follows:

"When any valuation of real property is changed he (the clerk) shall enter the valuation fixed by the board in red ink in the proper class above the figures of the assessor, and the figures of the assessor shall be crossed out with red ink. . . All changes in valuation of personal property made by the board of review shall be made in the same manner as provided for changes in real estate."

In order to comply with this very important requirement of the law the clerk should provide himself with a bottle of red ink and a pen for use at the meeting of the board of review. If any changes are ordered by the board of review, after following the method prescribed by the statutes, the clerk should draw a red line through the figures of the assessor and write in red ink closely above it the value as determined by the board of review.

The filled out sample of five lines of the roll given below indicates how this changing is done. **DO NOT MAKE SUCH CHANGES ONLY IN THE TOTALS. IT IS VERY IMPORTANT THAT THE CHANGES ALSO BE MADE IN THE DIFFERENT CLASSES AS SHOWN IN THE SAMPLE.** If changes are made in the totals only, it will be impossible for the clerk to know whether the board intended the change to be made in the property of one class or of another and the clerk will find it impossible to make his statement of assessment correctly.

Real Estate Assessment Roll for the Town of

, in the County of

TOWN FORM

School Dist. No.	NAME OF OWNER	DESCRIPTION OF LAND				No. of Acres	100ths	CLASSIFICATION OF												
		PART OF SECTION OR OTHER SUBDIVISION			Sec. or Lot	Town or Block	Range or Ward	A. RESIDENTIAL		B. MERCANTILE		C. MANUFACTURING		D. AGRICULTURAL						
		1	2	3				1 Land	2 Improvements	3 Land	4 Improvements	5 Land	6 Improvements	7 Acres	8 Land	9 Improvements				
3	(a) John Smith	1	N. E. N. E.		18	47	5W	40							20	1500	1600	3000	1	
3	(b) Ole Peterson	2	W. 1/2 N. W.		18	47	5W	76											2	
2	(c) Sam Marks	3	N. E. S. W.		20	47	5W	40											3	
1	(d) Frank Jones	4	Ellis Division		5	110			900	10500									4	
1	(e) Joe White	5	Original Plat		10	16			1000	10000									5	
			TOTALS						900	10500	500	5000				20	1500	1600	3000	

The Clerk should total each column of each page separately, and then forward the totals, **NOT** to the next page, but to the Summary Sheet. Cross-check the accuracy of the totals on each page. The sum of columns 7, 10 and 12 must equal column 23. The sum of columns 1, 3, 5, 8 & 11 and 13 must equal column 24. The sum of columns 2, 4, 6 and 9 must equal column 25.

Hence, the clerk should call the board's attention to the fact that they must determine what items on the line in the different classes are to be changed and how much. When this is done by the board of review, then it is easy to make the proper corrections in the total value columns. When the roll is totaled there after the red figures are used in place of those stricken out. The whole roll will then balance and cross check and no difficulty will be met with by the clerk in making his statement of assessment. **STUDY THE SAMPLE LINES CAREFULLY AND NOTE THE MANNER IN WHICH THE CHANGES ARE MADE.**

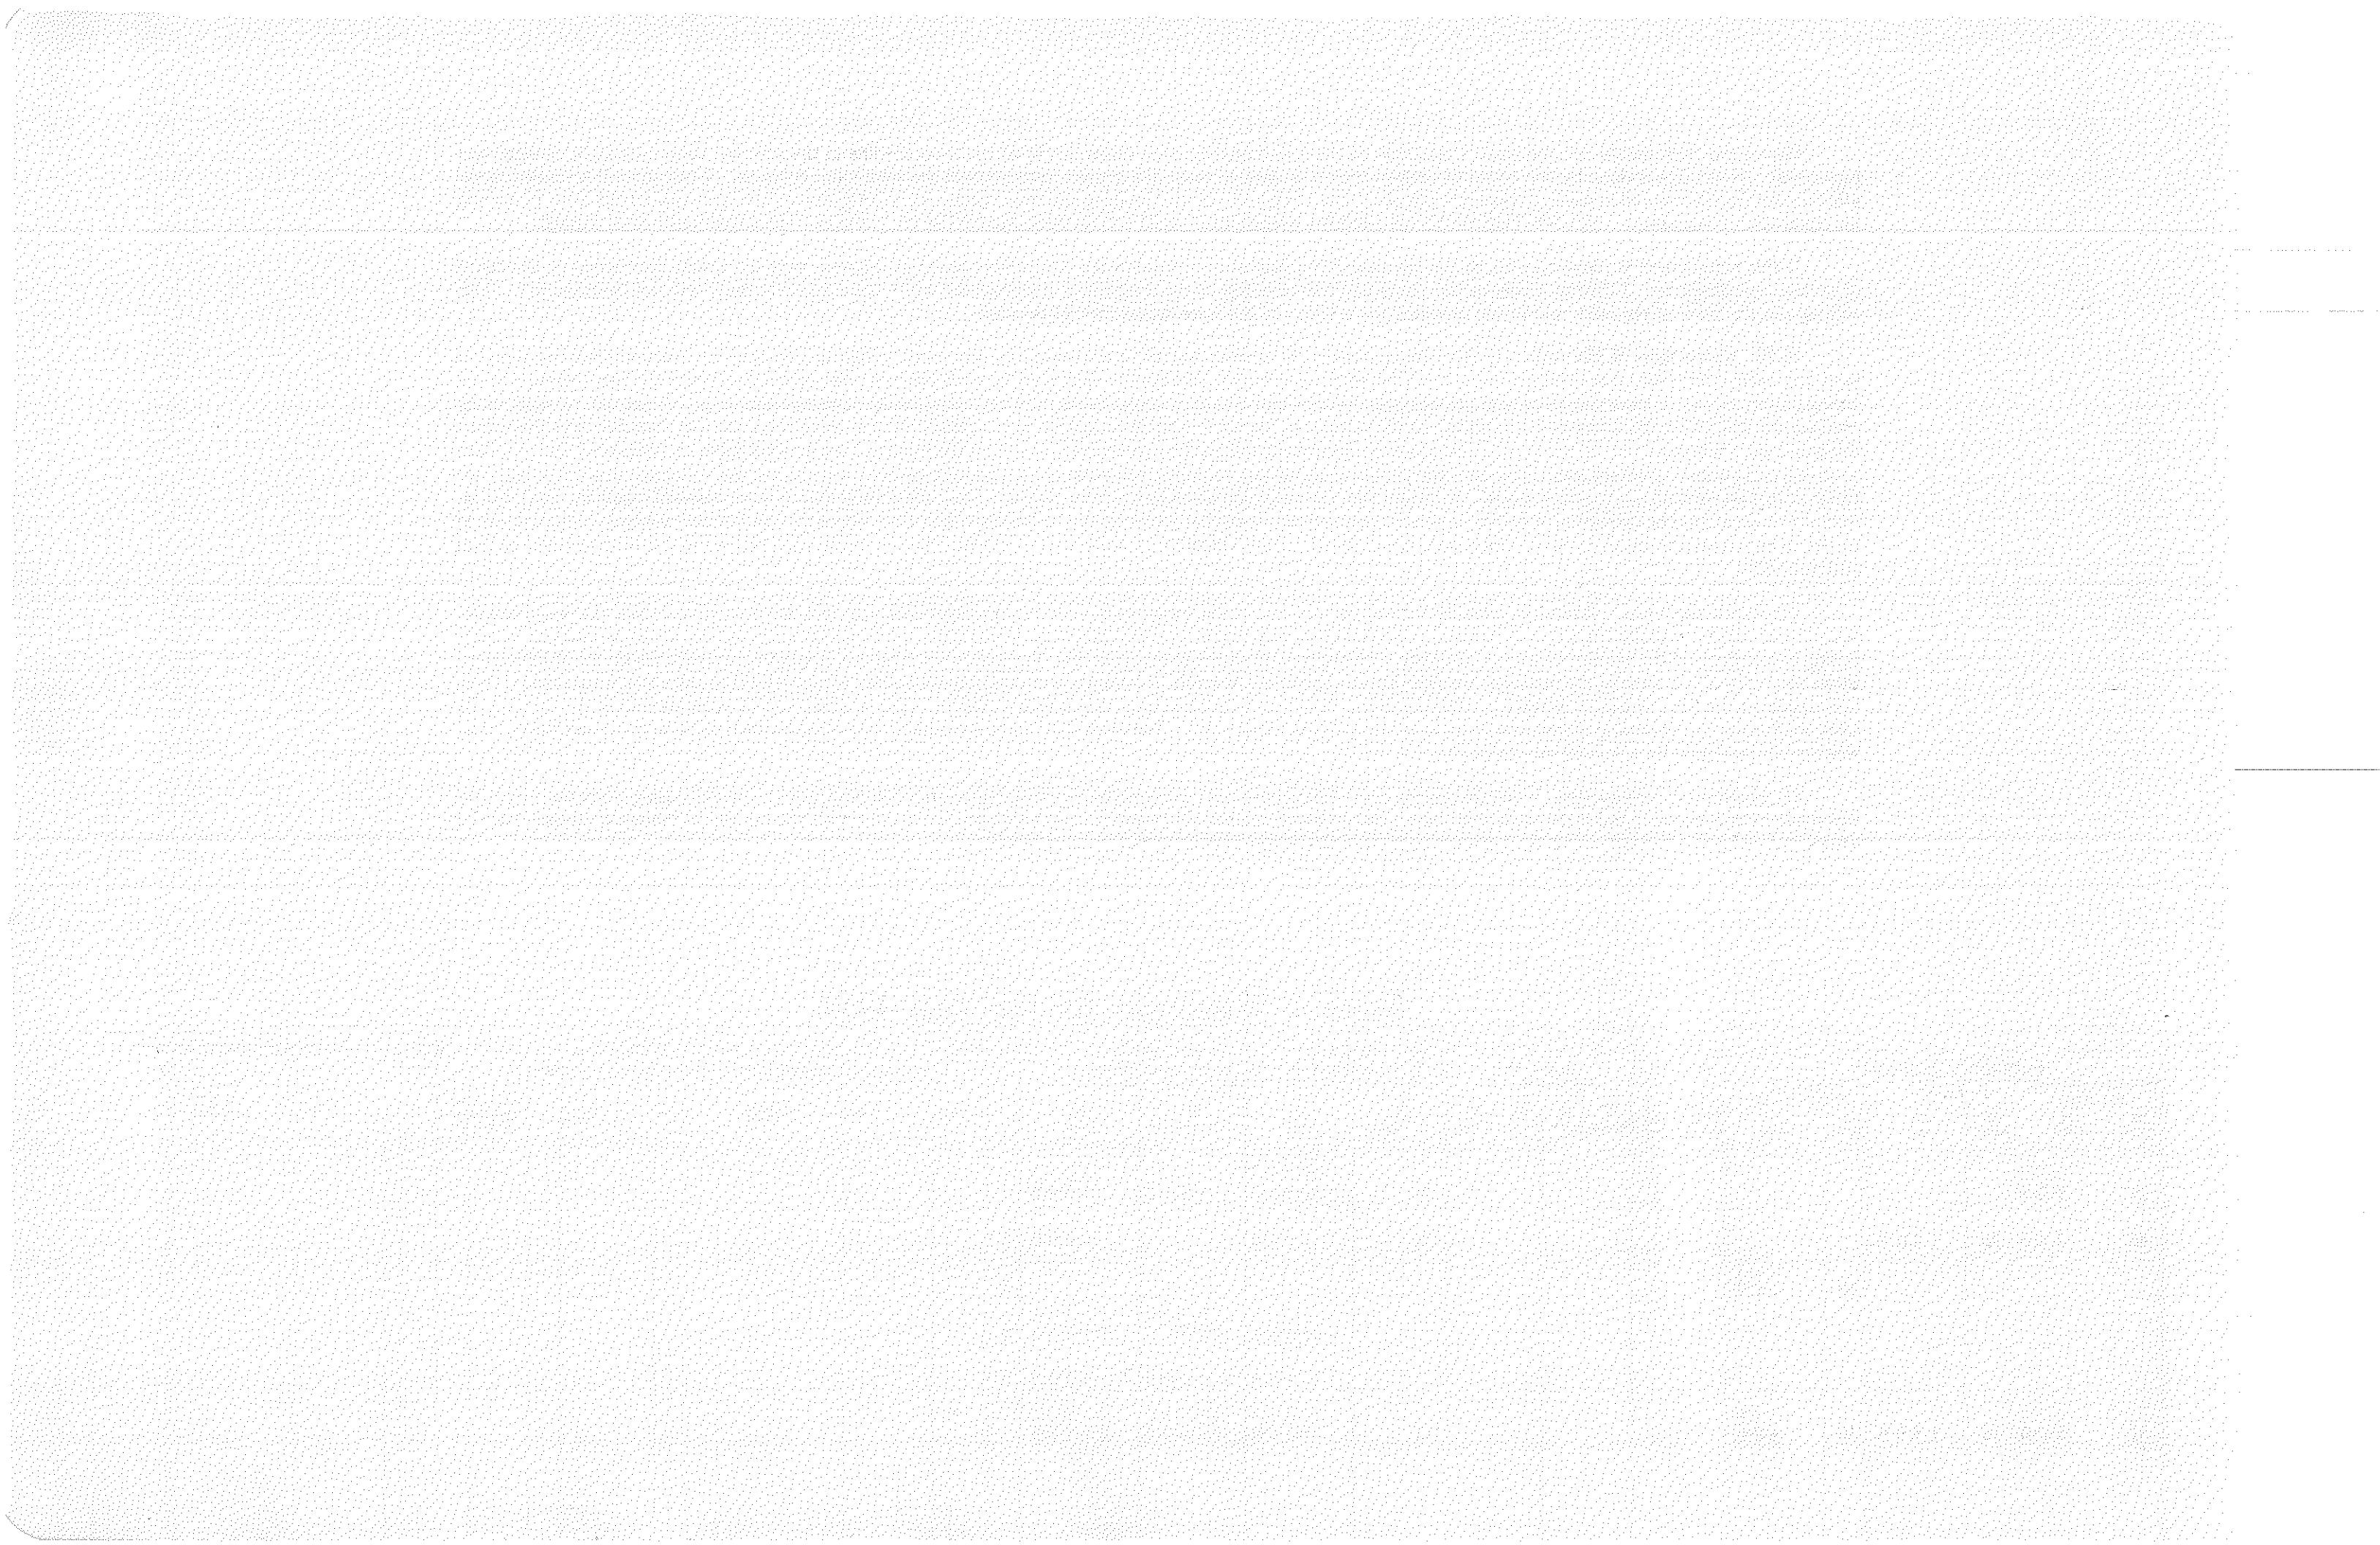

If this requirement is complied with, as the law demands, many of the controversies which have arisen in the past, over the values determined by the board of review, will disappear. Likewise, many of the errors and shortcomings in the statements of assessment which were formerly made will not be made now. This will lighten the work of the clerk and of the property tax division of the state department of taxation.

70.73 Correction of tax roll. (1) BEFORE DELIVERY. Whenever it shall be discovered by any town, village or city clerk or treasurer that any parcel of land has been erroneously described on the tax roll he shall correct such description, and when he shall discover that personal property has been assessed to the wrong person, or two or more parcels of land belonging to different individuals or corporations have been erroneously assessed together on his tax roll, he shall notify the assessor and all parties interested, if residents of the county, by notice in writing to appear at the clerk's office at some time, not less than five days thereafter, to correct the assessment roll, at which time and place the assessment roll shall be corrected by entering the names of the persons liable to assessment thereon, both as to real and personal property, describing each parcel of land and giving its proper valuation to each parcel separately owned; but the valuation so given to separate tracts of real estate shall not together exceed nor be less than the valuation given to the same property when the several parcels were assessed together. Such valuation of parcels of land or correction of names of persons assessed with personal property may be made at any time before the tax roll and warrant shall be returned to the county treasurer for the year in which such tax is levied. Such valuation or correction of names, when so made, shall be held just and correct and be final and conclusive.

(2) AFTER DELIVERY. Whenever after delivery of the tax roll to the treasurer it shall be discovered that any city, town or village clerk in making out the tax roll has made a mistake therein in entering the description of any real or personal property, or the name of the owner or person to whom assessed, or in computing or carrying out the amount of the tax, the clerk with the consent of the treasurer at any time before the treasurer is required to make his return of delinquent taxes, may correct the name of the taxpayer, the description of property or errors in computing or carrying out the tax to correspond to the entry which should have been made on the tax roll before delivery to the treasurer. If any such corrections shall produce a change in the total amount of taxes entered in the tax roll, the clerk shall make corresponding corrections in the warrant annexed to such roll. The clerk shall enter a marginal note opposite each correction, stating when made which shall be signed by the clerk and treasurer.

(3) NOTICE OF CORRECTION. When the assessment roll shall have been so corrected the clerk shall enter a marginal note on the roll stating when the correction was made by the assessor; and if the taxes shall have been extended against the property previously the clerk shall correct the tax roll in the same manner that the assessment roll was corrected, and extend against each tract the proper amount of tax to be collected.

INDEBTEDNESS

It is Important that You Fill Out This Statement in Detail

LIST ONLY BONDED INDEBTEDNESS THAT IS AN OBLIGATION OF TOWN, VILLAGE OR CITY	TOTALS			
For school buildings.....				
For other public buildings.....				
For pavement and sewers.....				
For waterworks.....				
For lighting plants.....				
For roads and bridges.....				
For other purposes (Detail):.....				
.....				
Total bonded debt.....				
All other indebtedness (Detail):.....				
.....				
Total indebtedness.....				

Three additional copies of this form together with return envelope, are furnished with the tax roll. When correctly filled out and certified, one is to be returned to the department of taxation, one is to be forwarded to the county clerk, and the other is to be retained in your office files.

Detailed instructions are given in the form annexed to this roll, and they should be read carefully before making out this statement.

There are a few instances in which a city or village constituting a single taxing district is partly in one county and partly in another. In such cases there should be a report to the county clerk of each county. For the purposes of such report each of the various items of taxes raised in the entire district should be apportioned between the two parts of the district in accordance with the assessed valuation of the property in each part, so that the report to each county clerk will show only the amount of taxes raised in that part of the city or village lying in his county. A like apportionment should be made in stating the indebtedness of such city or village and of the assessed valuation thereof. To avoid misunderstanding in such cases the general heading of the report, and of the endorsement on the back, should be changed to read, "Statement of Taxes and Indebtedness for

that part of the city (or village) of.....

lying in.....county," and the certificate of the city or village clerk should be modified in like manner.

Remarks:

READ CAREFULLY BEFORE MAKING OUT THE "STATEMENT OF TAXES AND INDEBTEDNESS"

Instructions to Town, City or Village Clerks.

1. The Statement of Taxes and Indebtedness filed with the Department of Taxation and with the County Clerk, should contain the same information appearing in the "Statement of Taxes and Indebtedness" annexed to this roll and that retained in your files. All statements, being identical, should be made out as nearly as practicable at the same time.

It is necessary that the report on these blanks be made with strict accuracy, for the reason that the statistics founded upon such reports are to be considered for the purpose of administering the laws for the taxation of railroad and other public utilities. Clerks are therefore requested to exercise the greatest care to make the reports correct in every respect.

Make all entries as indicated. It will be noted that the tabulation is divided into sections separated by brown lines. Each section represents a particular kind of tax or charge. The name of each section is indicated by letter and the subdivisions of each by numbers. The items to be entered after the subdivisions of the various sections are to be entered in the first column. The total of each section is to be carried into the second column as indicated by the dollar sign therein and by the explanation which appears in the third column.

Do not change any inquiry by striking out words, or by writing in others. If you are not absolutely certain how to enter a given tax, special assessment or charge, please explain its nature very carefully under "Remarks" so that the Department of Taxation may correct your treatment of it if it has not been properly classified.

Do not group together in a single total, items which are capable of separate statement under different inquiries of this report even though the final aggregate be correctly given. The figures, in detail, are wanted for various statistical purposes and the value of the report for such purposes would be greatly impaired by such grouping.

2. Enter the taxes and charges certified by the county clerk under the headings of this form which correspond to the headings used by the county clerk in his certificate of apportionment. Be careful to enter County Special charges under C7.

3. The totals of Sections A and B plus the amounts entered under inquiries C5, C6, C7 and D15 should equal the total amount of taxes and charges certified to the town, city or village by the county clerk. IF FOR ANY REASON, THE TOTAL AMOUNT CERTIFIED IS NOT CARRIED INTO THE LOCAL TAX ROLL, AN EXPLANATION SHOULD BE GIVEN IN "REMARKS" SETTING FORTH IN DETAIL THE REASON FOR SUCH OMISSION.

If a state trust fund loan certified by the county clerk to one municipality should be locally apportioned between two or more taxing districts, the treatment of this loan should be explained by each of the districts involved.

4. The subdivisions of Section A, B, C, and D should include general taxes ONLY. Be very careful not to enter special assessments which should be reported under Section F. General taxes are taxes levied by a uniform percentage upon the taxable property of an entire town, city or village, or upon all the property of some district therein such as a school or road district, ward, sewer district, etc. Special assessments are charges imposed other than by a uniform rate on the assessed value, upon certain designated parcels of real estate to defray the cost of local improvements such as pavements, sidewalks, sewers, drains, or of some special service, such as street sprinkling, cleaning walks, cutting weeds, such charge being imposed in proportion to benefits to such parcels from such improvements or services.

Enter special assessments under Section F indicating in the spaces provided at the left of column 1 the amount of each type of assessment belonging to the town, village or city and the amount entered in the tax roll for individuals holding contractors' certificates and special assessment bonds. Do not confuse special assessments with the frequently used phrase "Special Taxes." For instance, in the town it is often said that a special tax was levied in order to build a particular bridge or to purchase a road machine. Such taxes are general taxes and should be entered after the proper subdivisions of Section C.

5. Under Inquiry C8, the total amount of Taxes assessed for local Highway purposes should be entered. Sec. 81.11 provides that all highway taxes must be paid in cash.

6. Inquiry C 12 applies only to cities in which the public schools are administered by a board of education as distinguished from a school district. Such cities should enter opposite C 12 the amounts raised as a general city tax for the payment of principal and interest on school indebtedness, the purchase of school sites and construction of school buildings, etc. Amounts included in the board of education budget and raised as a local school tax should appear under Section D.

7. No entry should appear after inquiry G unless the local water plant is owned and operated by the town, city or village reporting, and then the amounts entered thereafter should represent the amount of delinquent rentals which consumers have failed to pay and which are carried into the tax roll for collection. Tax levies to pay for hydrant rental or any water service to be paid by the municipality either to a private or municipal plant should be entered after inquiry C13. Amounts to be entered for Sewers are only Delinquent Sewer Service Charges authorized by Section 66.06(22).

8. Opposite item I, designated "Forest Crop Taxes," enter only the forest crop acre tax. Forest crop lands entered by private owners must be assessed by local assessors, but these values are used only in case the lands are later withdrawn. Forest Crop lands entered under regular classification are taxed at a flat rate of 10 cents per acre. Special Private Forest Crop Lands are taxed at 20 Cents per acre, Section 77.15. Do not enter contributions received from the state in the form of state aids under the heading "Forest Crop Taxes."

The Clerk should total each column of each page separately, and then forward the totals, NOT to the next page, but to the Summary Sheet. Cross-check the accuracy of the totals on each page.
The sum of columns 7, 10 and 12 must equal column 23. The sum of columns 1, 3, 5, 8, 11 and 13 must equal column 24. The sum of columns 2, 4, 6 and 9 must equal column 25.
