

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
Monitoring Requirements Not Met for BROWNTOWN WATERWORKS

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not your drinking water meets health standards. Between 1/1/2024 and 9/30/2024, we did not monitor for **nitrate** contaminants, and therefore cannot be sure of the quality of your drinking water during that time.

What precautions should be taken at this time?

There are no special precautions you need to take at this time. However, it is important to remember that the quality of your drinking water is not known at this time.

What was the cause of the missed monitoring requirements?

Samples were taken on time but were
returned to warm so has to be retaken

What is being done to correct the problem?

sample will be retaken

When will the problem be resolved?

10-21-25

If you have questions regarding the safety of our drinking water, please contact:

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Monitoring Requirements Not Met for BROWNTOWN WATERWORKS

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not your drinking water meets health standards. Between 8/1/2025 and 8/31/2025, we did not monitor for disinfection byproduct contaminants, and therefore cannot be sure of the quality of your drinking water during that time.

What precautions should be taken at this time?

There are no special precautions you need to take at this time. However, it is important to remember that the quality of your drinking water is not known at this time.
