Village of Maine - 6111 N. 44th Avenue - Wausau, WI - 54401 - (715) 675-5607

SITE ADDRESS APPLICATION INSTRUCTIONS

DIRECTIONS

The drawing to the right illustrates three types of measurements, **any one of which is a measurement** that can be used to assign a new address.

“A” is the measurement from the centerline of a new driveway to a property line on the property.

“B” is the measurement from the centerline of a new driveway to the centerline of a nearby intersecting road.

“C” is the measurement from the centerline of a new driveway to the centerline of the driveway of an existing residence (or other structure) that already has an assigned address.

Please read carefully: INACCURATE INFORMATION MAY RESULT IN SITE ADDRESS CHANGES.

*Applicant must submit a **detailed drawing** showing proposed/present driveway and building location(s), if applicable, in relation to A, B, or C. Include actual distances (not guesses) from property lines, road intersection, or the closest neighbor's driveway which is addressed. The more accurate the provide information the easier and quicker it will be to provide you with an accurate site address. Applicants may use the reverse of this page to create a **scaled plan**. Parcel mapping and aerial photographs are available at the Marathon County Conservation, Planning and Zoning Department or on the Marathon County on-line mapping webpage.
