

LANDLORDS ARE ASKED TO PLEASE PASS THIS INFORMATION ON TO YOUR TENANTS

VILLAGE OF MILLBROOK

Brush Pick-Up

APRIL 1st – MAY 31st

Brush pick-up is a service provided to Village Residents from April 1st to May 31st and additional pick-up days during the summer months which include the second Monday of July, August & September.

Brush pick-up DOES NOT INCLUDE yard clearing, tree removal or leaf pick-up. Fines may be assessed by the DPW Supervisor if these items are out for pick-up. (Leaf pick-up begins October 1st)

For more info visit villageofmillbrookny.com/works

~ MAYORS NOTES ~

Littering in the Village

Recently between snowfalls, when it's possible to see the ground, I've noticed a lot of litter, including used face masks, along the sidewalks and roadways. Please do your part to keep the Village clean. While we do occasionally patrol the Village for trash, let me know by **email** or phone if you see litter that needs removal. On a related note, per my request, a member of the USDA visited Millbrook on 3/9 to assess our turkey vulture problem (reference my **January Newsletter**). His immediate recommendation was to encourage businesses and residents in the Village to keep their trash cans and dumpster lids closed at all times. Additionally, he will develop a proposal for the USDA to institute some mitigation techniques which could be done at a yet-to-be-determined cost to the Village.

Bennett College Demo

As you may have seen, most of the buildings on the Bennett College grounds have been removed and the demolition of Halycon Hall has begun. Given the asbestos concerns, the demo company is using 3 fire hoses and 2 converted snow-making machines to put a "shower curtain" over each part of the building as it's being removed. Even so, dust has been reported when one of the center towers fell and the engineering firm has reoriented the firehoses to ensure this doesn't reoccur. Air-quality sampling equipment is placed around the entire construction site and analyzed by an off-site lab daily. The NYS Department of Labor routinely does on-site visits to ensure the operation conforms to all health standards. If you decide to watch the demo in person, please do so safely without impeding construction or local vehicle traffic.
