# Yard Waste Pick-Up and Village Dump-Site Policy

## Yard Waste Pick-Up

As a service to Sherburne residents, Village personnel pick-up yard waste. If you choose to utilize this service, please follow the new guidelines below.

Lawn clippings, leaves, weeds, and similar material, should be put in paper yard waste bags or reusable containers (like a 5 gallon pail or small tote) and placed between the sidewalk and curb. Material placed in plastic bags will not be picked up. Please be mindful of the weight of your filled bag or container - keep them less than 40lbs.

This service is intended for yard clean-up, **not entire tree disposal**.

Sticks, limbs, brush, etc., should be cut into approximately 4ft lengths and left curbside. Limbs and trees greater than 4" in diameter constitute tree removal and is not part of this yard-waste program. See Tree Disposal section below.

## Tree Disposal

If you are having trees larger than 4" in diameter removed from your property, do not drag them to the curb or expect to take them to the Village's Yard Waste dump-site on Bingham-Collins Rd. Tree service contractors are responsible for arranging their own disposal of whole trees. However, brush chipped up, may be brought to the Village's dump-site by appointment only. Tree trunks greater than 4" in diameter and large root balls will no longer be accepted.

## Village Yard-Waste Dump-Site on Bingham-Collins Rd

This dump-site is intended as a location for the Village DPW to dispose of yard waste and debris from clearing the Electric Department Rights of Way. The Village does not have the means to manage large loads of hard fill (such as concrete and rocks), tree trunks, large heavy brush piles or excavated root balls. Residents may dispose of yard waste and small diameter brush at this site by appointment.

## Fall Leaf Pick-Up

In the fall, Village personnel pickup leaves with the leaf vacuum machine. The time period for this service is usually October 1 through November 30 depending on the weather. Please rake leaves to the curb, but not into the street. The leaf vacuum machine is not operated in the spring.
