

Recycle More and Save!

This year, the legislature approved a 120% increase in fees charged by the state to dispose of trash in Wisconsin landfills.

It's more important than ever for residents to Recycle More to help save tax dollars on trash disposal and provide materials to companies that manufacture new products.

To get an additional free blue bin for household recyclables, contact your city, town or village hall. Check the website below for "What to Recycle".

For more information, visit www.waukeshacounty.gov/recycling or call 262-896-8300.
