

Richmond S. Thornley

Candidate for West Bountiful City Council

West Bountiful holds a special place in my heart, I want to serve the community that I have called home for all but a few years of my life. I have a B.S. in Chemical Engineering with minors in Mandarin and Ceramics from the University of Utah. I have spent the last five years working in Environmental Compliance at the HF Sinclair (Holly) Refinery. Through that I have sharpened my eye for detail, and developed a sense for the difference between clear and convoluted regulation. I believe in a measured approach, and seeking to understand the different perspectives that surround issues. I want to continue the good work of past councils in improving and maintaining city infrastructure, and supporting the people that make that happen. I appreciate your consideration for West Bountiful City Council. For more info check out RST4WB.com
