'Being Septic Smart' Webinar

Tuesday, September 16 from 6:30 - 8:30 p.m.

Presented by the University of Minnesota Onsite Sewage Treatment Program

To celebrate SepticSmart week 2025, the Onsite Sewage Treatment Program (OSTP) at the University of Minnesota is once again offering the 'Being Septic Smart' webinar.

'Being Septic Smart' provides information that enables property owners to maximize their septic investment, including:

- How a septic system works
- The purpose of the septic tank
- Details about the drain field/mound
- Importance of clean water
- How often a septic tank should be pumped
- Whether additives are a good idea
- How to prevent winter freeze-ups
- And much more!
